SPECIAL NOTICE

4. The decision must be rendered in writing to all interested parties within a reasonable period of time (seven business days) after the conclusion of the hearing.

VI. Release of "Student Directory Information" information on students, such as date and place of birth, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended, is defined and referred to in this Act as "student directory information" (this is a category of information and does not refer necessarily to a publication known as a "directory").

The information mentioned above will be released by various campus offices periodically or upon request unless the student requests in writing that specific information be withheld.

A publication known as the Texas A&M University Directory is one type of periodical containing data classified as "student directory information." It will contain the student's name, address, telephone listing, major field of study and classification unless the student requests that part or all of the data be withheld.

Periodically the Registrar will publish official notice of the above policy so that students wishing to do so can make requests known to the Registrar (undergraduates) or the Dean of the Graduate College (graduate students). After the official notice has been published, the Registrar will inform offices concerned of the requests received.

VII. Destruction of Records
 Texas A&M University constantly reviews "education records" it maintains and periodically it becomes necessary to destroy certain records. In no case will the University destroy records if the action is prohibited by state and/or federal law.

Basic scholastic records are kept permanently in the Registrar's Office. Beyond these, the various departments and offices may determine their own policies regarding retention of records within existing law.

VIII. Letters of Recommendation
 A. Students have the right to review confidential recommendations used in applications for employment or for admission to any educational agency or institution, or information concerning honors awarded, except when the student waives, in writing, the privileges of examination.

B. Under the Family Educational Rights and Privacy Act of 1974, the student does not have access to confidential letters and statements of recommendation which were placed in the education records prior to January 1, 1975, if the letters or statements are used for purposes for which they were specifically intended.

IX. Former Students
 These procedures apply to all persons formerly enrolled at Texas A&M University as well as to those currently enrolled.

Jarvis 'treats' Texas

AUSTIN — Howard Jarvis, a Texas businessman, said Thursday Texans are inclined toward individualism rather than most other Americans, and that attitude will force the legislature to adopt initiative and referendum measures.

Jarvis told more than 400 pants at a Texas Farm Bureau conference he would lobby to pass their "inherent" initiative and referendum.

Jarvis agreed Texas does not have the property tax problem it had before passing Proposition 13 last June, a move that slashed by 57 percent in the national state.

"Texans may never have an initiative," he said, "but keep the politicians honest. The best way to prevent a bad law is to get it voted down."

Initiative and referendum method voters in some states use to decide an issue is going through the legislature. Under the method, a number of eligible voters vote to put an issue on the ballot to decide its fate.

Jarvis who three times successfully tried to get Proposition 13 passed in California before the state's legislature, criticized Lt. Gov. Bill for opposing initiative and referendum in Texas.

"Someone ought to educate (Hobby) about representative government. We're going to do what he's not the one that what the people want."

Jarvis said California's Proposition 13, which limited the state's ability to raise taxes, has maintained its level of service. Jarvis said California's employment had decreased percent while the private sector had increased by 1.5 percent.

"And California is the one to lower inflation since Proposition 13," he said. "Three years ago that 13 is vital to the life of California."

"Proposition 13 kept a middle class people from losing their property. Grand felony theft was."

Jarvis said Proposition 13 is a signal for the little person, he gets off his duff, he can government. It is the biggest not only in this country, but world."

"Proposition 13 was a coming in California. It was the people's movement because we were smart enough to organize, we were smart enough to organize, we were smart enough to organize, we were smart enough to organize."
