

Bellard to go to Mississippi State

From staff and wire reports
Former Texas A&M coach Emory Bellard has been chosen as head coach at Mississippi State, a university source said Sunday. Mississippi State officials have held a news conference this afternoon in Starkville, Miss., where the selection of Bellard is expected to be announced.

Bellard visited at Mississippi State Thursday and Friday and was named the prime candidate for the job vacated by the resignation of Bob Tyler. Bellard, who quit the Texas A&M job in mid-season last year, has not said he has been offered the job. He said that announcement would come from Mississippi State officials.

The people at Mississippi State were very gracious during my visit this week. But any additional comments should come from them.

Texas Aggie track results

Men's Team
Shot put: Tom Glass, first, 1:56.94; shot: Scott, third, 59-7¼; high jump: Jim Howland, 7-1 (meet record); pole vault: Randy second, 16-6; 60-yard dash: Curtis first, 6.25.

Women's Team
High jump: Jan Chesbro and Linda Waltman, fifth (tie), 5-5; long jump: Linda Waltman, first, 19-0½; Sande Lambert, fifth, 18-0½; 880-yard run: Sandra Brown, third, 2:21.69; mile relay: Texas A&M, fourth, 4:04.26.

an open mind.

Tyler resigned as football coach Jan. 22 after being relieved as athletic director by school president James McComas. The college president said he relieved Tyler because the football program had demanded too much of his time in answering questions and criticism about the athletic program.

Bellard was among a series of

coaches interviewed by a search committee set up following Tyler's resignation. Other coaches interviewed by the panel included Southern Mississippi Coach Bobby Collins, Tom Goode, an assistant at Ole Miss, and Millsaps Coach Harper Davis.

MSU officials said more than 100 coaches have submitted applications for the job.

ENGINEERING MAJORS

HERCULES INC. of Salt Lake City, Utah is interested in your future if you are an engineering student. We will be on campus interviewing for the following positions:

MECHANICAL ENGINEERS

Opportunities in rocket motor design, analysis and testing; facilities and manufacturing engineering; and quality assurance engineering.

ELECTRICAL ENGINEERS

Rocket motor and component testing (electronic elective), and facilities and manufacturing engineering (electronic or power elective).

CHEMICAL ENGINEERS

Rocket motor design analysis and testing; process engineering; quality assurance and programs.

Our representatives will be on Campus Thursday, February 15th to discuss your career interests. Contact the career placement office to schedule your interview.

If unable to interview, please send resume to:

A Career With Vector Cable Is For You

Consider the advantages we have to offer you: excellent salary, generous benefits, career advancement, stability, exciting challenges, corporate growth, and the exciting dynamic lifestyle of Houston.

We can offer these advantages for a few simple reasons. The Vector Cable Company is an international leader in the manufacture of high quality cables and underwater connectors. It is also a subsidiary of Schlumberger, one of the largest international companies in the world. Vector Cable plays an integral part of Schlumberger operations through the supply of customized electro-mechanical cables. This all adds up to the size to insure stability, the activity to insure growth, the specialized requirements to insure challenge, and the opportunity to insure advancement.

Our Sugar Land location is on the fringe of Houston, the nation's fastest growing cosmopolitan city. It offers you a vast selection of entertainment and recreational experiences unequalled in the state. Disco dancing until dawn, Cotton Eye Joe at Gilley's, and an evening of opera are only a few of the choices open to you.

DON'T LET THIS OPPORTUNITY PASS YOU BY!

We Are An Equal Opportunity Employer M/F

EARN OVER \$650 A MONTH RIGHT THROUGH YOUR SENIOR YEAR.

If you're a junior or senior majoring in sciences like math, physics or engineering, the Navy has a program you should know about.

It's called the Nuclear Propulsion Officer Candidate-Collegiate Program (NUPOC-C for short) and if you qualify, you can earn as much as \$650 a month right through your senior year. Then after 16 weeks of Officer Candidate School, you'll get an additional year of advanced technical education. This would cost thousands in a civilian school, but in the Navy, we pay you.

It isn't easy. There are fewer than 400 openings and only one of every six applicants will be selected. But if you make it, you'll have unequalled hands-on

responsibility, a \$24,000 salary in four years, and gilt-edged qualifications for jobs both in the Navy and out.

Ask your placement officer to set up an interview with a Navy representative when he visits the campus, or contact your Navy representative at 800-841-8000, or send in the coupon. The NUPOC-C Program. Not only can it help you complete college. It can be the start of an exciting career.
