INFLATION FIGHTING ideas

"Say Cheese"

Cheese, we're reminded by the U.S. Office of Consumer Affairs, is an excellent source of protein, calcium, certain vitamins and minerals and it comes in many forms. Depending on how you intend to use it, you may be able to save money by purchasing one of the less expensive varieties. For instance, a sharp cheddar costs more than a mild cheddar, primarily because it's aged longer. Processed cheese costs less than "natural" cheeses and may be preferable in cooking such favorites as Macaroni and Cheese since it melts more easily. It takes only a very little effort to cut, slice or shred your own cheese, and you will save money by doing it.

Safeway's cheese selection is one of the most varied, ranging from near-legendary imported cheeses to the finest domestic types. The U.S. Office of Consumer Affairs recommends that you include cheese dishes on your menus often. You'll be serving delicious food and fighting inflation at the same time.
