**INFLATION FIGHTING ideas**  
 "Gardening - Grow It Yourself"  
 An Inflation Fighting Idea from the U.S. Office of Consumer Affairs: Planting a back yard garden is a great way to have the pleasures of home-grown fresh vegetables and fruits all summer long... all year long in some climates. Quite inexpensively, too.  
 Safeway, as "green-thumbers" know, carries a large selection of seeds, soil additives, fertilizers, insecticides and tools. Many Safeway Stores also sell "pony packs" of thriving healthy plants ready for you to transplant.  
 Your own vegetable garden won't take much room. The joys of "growing your own" are much greater than the little bit of work involved. Even a kitchen window can be used as an herb garden. Plant chives, parsley, green onions, etc. and snip them as the recipes demand.  
 ... together, we can be INFLATION FIGHTERS!
