THE BATTALION Page 3

Court opens today—but where?

RV RICHARD OLIVER

Brad Smith of the new istrict Court is not sure will hold court today when

vas appointed April 12 by Clements to preside over ourt that was created by Legislature during the

urthouse for it.

ommissioners Court is have to make a decision space problem," he said. snap my fingers and have urtroom and an office for d my secretary, I'd do. it. just much more involved

what I'll be doing, but I for sure where I'll be," "They (the Commissioners moving in a general di-

said the "direction" is a nsive study by the citinmittee, adopted by the ners, to analyze the space

said. ture as well as the present. They have to look ahead toward the future space problems instead of instituting hit-and-miss method, only cover-

ing the present problem. Asked if he agreed with the direcsaid it was all a matter of priorities.

Let's just say I'm satisfied with gh the court has been the direction they're going," he there is no room in the said. "It's better to look at the longrange plan and deal with the problem head-on. It's a lot more efficient that way. In this way they deal with

tion the committee is taking, Smith up the 85th District Court for while

the short range problem as well as the long range problem.

Another problem facing Smith is catching up on an overload of court

cases. My first job on Monday, when I begin, is to try and alleviate the backlog of cases," said Smith. "I don't forsee any problem getting it done, but it might take a little time

The new court was created due to the dramatic increase in litigation cases in the existing court," he said. "For example, a lawyer came in today and wanted a hearing on a

"They're making a good start," he case involving alimony and child d. "They must deal with the fu-support, but there was no way to get done until later in May, which shows you the crowded conditions. "There has been a large increase

in the Brazos County population,' he said, "which has caused a real problem in case load. Also, the Merka murder case will probably tie

In the Merka case, Curtis Paul Harris, 17, of Bryan, will be tried on a capital murder charge in connec-tion with the Dec. 11 beating death of Tim Merka, 27, of Mumford.

"All criminal cases are required to be tried within 120 days according to the Speedy Trial Act," he said. Regardless of that Act, it is certainly my philosophy that cases be speedily disposed of. The people, I believe, expect and deserve to get them done and now we have to wait years or months to get them resolved

Smith said he plans to institute no major changes in court procedures.

For the most part, I will follow regular district court procedures,'

he said. "By that, I mean the cases brought to court will be done the same way the docket is set up in the 85th District Court.

"It's hard to make logical decisions in a county court-at-law, so it's best to use the standard system. I'm used to it, and all this will start much more smoothly if I stick to it.'

Smith was elected in November of 1976 to serve as the first judge of the county court-at-law. Prior to that, he had served three years as assistant district attorney for Brazos County

Smith said the main difference between his duties as county courtat-law judge and district court judge is jurisdiction.

"Primarily, the difference is jurisdiction," he said. "My old job included judging criminal misdemeanors and civil cases up to \$10,000. Now I'm judging criminal prosecutions and there are no upper limits to the amount of money involved in civil court cases.

Smith was sworn in as district judge Saturday at 11:30 a.m. in front of the Brazos County Courthouse.

Oklahoma ponders castration penalty

United Press Internationa OKLAHOMA CITY — To some it was funny. But Rep. Frank Shurden said he was not "joking one bit" about a bill to "asexualize" certain sex offenders as punishment, and the Oklahoma House concurred. House members Thursday approved, by a 50-35 vote, an amendment providing for castration of sex

offenders in some instances. A vote

on the bill itself was delayed until

state need as much protection as I can give them," Shurden said. "I'm

'The women and children of this

today

the

not joking one bit.

Opponent Rep. Jerry Steward, D-Del City, argued that since asexualization was defined as "incapacitation of the external male genitalia," the proposal left out any mention of female sex offenders.

D-Waurika, pulled out a pocket

Rep.

knife and waved it around.

"There's always the chance after conviction and appeal we would discover a convicted person didn't commit the crime.

The freshman representative said "do-gooders and bleeding hearts" were to blame for the high crime rate and "it's going to be worse if we listen to them." cruel"

Laughter broke out several times during various parts of the discus-sion on the provisions, and at one several times sion on the provisions, and at one several times among other definitions.

Bill Bradley,

The three-page bill says a judge or jury must find two "aggravating circumstances" before ordering a defendant asexualized.

It defines aggravating circumstances as committing a sex crime against a child under 18, committing an "especially serious, atrocious or sex crime and committing a
