Peel awarded honorary degree

Wesley E. Peel, new director of planning, design and construction for the Texas A&M University System, has been awarded the professional degree in civil engineering.

It was given at the University of Missouri at Rolla during the 106th commencement. The degree recognizes outstanding contributions to the engineering profession.

Army Maj. Gen. Peel received a bachelor's degree in civil engineering at the Missouri institution in 1958. He was awarded a bachelor's degree in agricultural education at Texas A&M in 1946.

The Texas A&M official until recently was commanding general of the U.S. Army Engineer Training center at Fort Leonard Wood, Mo. The military veteran held the post almost a year, until assuming the Texas A&M post May 15.

A registered professional engineer in Texas, Gen. Peel during 30 years military service commanded an engineer group and battalion and was operations chief of a brigade in Vietnam. He also served in Korea and the Pacific.

Galloway to fill term on board

Retired oil executive James H. Galloway of Houston has been named to fill the unexpired term of DeKalb businessman Norman N. Moser on the board of consultants for Texas A&M University's free enterprise center.

Galloway, already a board member, agreed to fill out Moser's term so that new appointee Thomas R. "Bob" Frymire of Dallas could have a full five-year term. Frymire was initially seen as filling Moser's time on the consultant board consisting of five businessmen, five Texas A&M deans and the president of the Former Students Association.

Moser, originally named for a two-year term on the board of consultants to the Center for Education and Free Enterprise — a non-profit, privately-funded effort headquartered on the Texas A&M campus — relinquished his post earlier this year.

to accept a post with the Texas A&M University System Board of Regents.

In other business, the consultants, meeting for the first time with newly named center director Gene C. Useton, heard reports on the organization's past activities and future plans for pros and fundraising.

Also discussed was the proposed 1979-80 free enterprise center budget of \$555,678, a 60 percent higher request than the current budget. Largest increase, more than double, would be in \$314,800 earmarked for education, research and publication programs.

The board voted to meet Aug. 29 at Texas A&M.

Two department heads named

New department heads have been named for the geology and biology programs at Texas A&M University.

Dr. Robert Stanton Jr. was named to head geology, succeeding Dr. David Stearns, department head since 1972. Stearns is returning to fulltime teaching and research.

Dr. William Klemm has been appointed interim head of biology, succeeding Dr. John Seed who had held the position since 1974 and now seeks to return to fulltime teaching and research.

Klemm, a full professor with degrees from Auburn and Notre Dame, has been a faculty member since 1966.

Stanton, a faculty member since 1967, earned degrees from California Institute of Technology and Harvard.

A&M graduate to chair Rice board

Texas A&M University graduate Robert R. Herring is the new chairman of the Rice University Board of Governors.

Herring, chairman and chief executive officer of Houston Natural Gas Corp., was graduated from Texas A&M in 1941 with a degree in economics. He also is a recipient of Texas A&M's Distinguished Alumni Award, the highest honor bestowed by the university.

Battalion editor selected as a 1980 Sears Congressional Intern

Elizabeth Ann "Liz" Newlin, a Texas A&M University junior from Tyler, has been selected as a 1980 Sears Congressional Intern.

She was among 15 college and university student chosen for the prestigious internships sponsored by Sears, Roebuck and Co.

The internship will include appointment to the staff of a member

of the United States Senate or House of Representatives from Feb. 1 — April 30, 1980, and participation in an academic enrichment program while working in Washington, D.C.

Newlin, a communications major, will be editor of The Battalion during the fall semester. She has previously held newspaper internships

with the Tyler Courier Times and The Eagle, Bryan-College Station. This summer, she is working for the Associated Press wire service in Houston.

The daughter of Mr. and Mrs. Borah P. Newlin of Tyler, Newlin is also the recipient of Texas A&M's outstanding junior award.
