WAREHOUSE

Un-Commonly good

Terry Skinner, a junior environmental design major, chose to do his homework to be an important part of college life, as demonstrated last Friday night in the Commons.

Square melons Japanese from corners market

United Press International TOKYO — The Japanese are the latest advance in producing square watermelons. Square watermelons, which are easier to store and transport, now being sold on a commercial basis.

The melons, developed by horticulturist Tomoyuki Ono, keeping his methods a "secret," went on sale at a major department store last week. A store spokesman admitted, "some customers are simply taking them as a joke to send to their friends," but the melons appear to be tasty, too.

In what is said to be the most expensive city, an 11 1/2 square watermelon, measuring about 7 inches by 7 inches, \$19.50 or 4,300 yen. So why special square melons when a many shaped melon at the same price can be had for \$9?
