# **Co-op offers students** experience in careers

Battalion Reporter The Cooperative Education Prog-ram of Texas A&M University is 17 years old, 700 students strong and

still growing. The program, which began in 1963 as a cooperative venture be-tween the College of Engineering and engineering-related businesses, was expanded in 1977 to make its beneficial on-the-job working ex-periences available to students enrolled in almost every college of the university.

We now have representatives in all the colleges on this campus ex-cept the College of Medicine," said Steven A. Yates, the newly appointed campus-wide co-op director at Texas A&M. Yates explained that only certain

departments within a college may be involved such as the department of meteorology of the College of Geos-ciences. The newest college to join the program was the College of Business which started its co-op program this semester.

works. Students who want to co-op work

out a complete four-year degree plan which coordinates "working" semes-ters and "school" semesters. The plan makes the most efficient use of the student's and the employer's time and allows the student to be in school when courses he needs are offered.

"The co-op program is not just a summer job," Yates said. "A student is expected to work at least three work terms for the same employer.' This means a student who enters the program will work at least one semester for every two semesters he is in school: two summer sessions are equivalent to a regular semester.

Completion of three work terms earns the student the Cooperative Education Certificate upon graduation from Texas A&M.

During the working semester students are often encouraged to earn transferable credits by taking night Yates, who worked for several courses at local colleges, Yates said.

By LAURA HERTENBERGER years as a coordinator for the co-op Battalion Reporter The Cooperative Education Prog-The Cooperative Education Progwrite during his working semester, he said.

"The average co-op student seeks employment in his hometown and lives with his parents during that semester," Yates said.

Yates said he encouraged cooping students to consider first which job will be most beneficial and specifically related to his future career plans, and then to look at the appeal of its location.

The co-op program offers some students a chance to work on the Texas A&M campus or at various places within the state. But there are also Aggies working as far away as Idaho, Washington, D.C. and Saudi Arabia.

## Texas A&M lands 56 in Who's Who edition

The 1979-80 edition of "Who's Who Among Students in American Universities and Colleges" will list 56 Texas A&M University students among the nation's most outstanding campus leaders.

Students are chosen for the listing on the basis of academic achievement, leadership and campuscommunity service They join an elite group of stu-dents selected from more than 1,200

institutions in all 50 states, the District of Columbia and several foreign nations The 1979-80 directory will include

Texas A&M students Teresa Beshara, Matthew Hammer, Cheryl Leavitt and Deborah Pigg of Richardson; from Houston, Paul Bettencourt, George Black, James Briggs, Dara Flinn, Michael Form-by, Gail Jolly, Deborah May, Sara Morse, Charles Mullins, and Chareene Ward Also, Michelle Bratten, Dorothy

Dubois, Brian Keith and Michael

Snow, San Antonio: Nancy Bunch, Texarkana; Lisa DesRosiers, Peter Greaves, George Hill and Michelle Scudder, Austin; Gregory Dew, Liberty; Allen Dewey, Sherburne, N.Y.; William Dugat, Weslaco. In addition, Sara Feldman, Col-lege Station; Michael Godinich, Gal-usters, Curthia Court, Palliar

veston; Cynthia Gough, Bellaire; Paul Gulig, Killeen; Brooks Herring and William Starta, Victoria; Michael Huddleston, Lewisville; Robert Ingram, Elmendorf Air Force Base, Alaska; Aubrey Johnson, Kennett, Mo.; Ronald Kapavik, son, Kennett, Mo.; Konadi Kapavik, Lancaster; Ann Landis, St. Paul, Minn.; Jeff Mason, Corpus Christi. Others were Kathy McCoy and Ursula Schorn, Irving; Kathryn McCrady, Arlington; Federick Mergner, Fort Worth; Thomas Mos-

ley, Highlands; Mark Murphy and William Trainer, Dallas; Bruce Netardus, El Campo; Bill Norman, Bryan; Bobby Parker, Round Rock; Judith Ripple, Baytown; Theresa Schulz, Sugar Land; Mark Smith, Parcer, Billward, Store, Bichwood Pecos; Dillard Stone, Richwood; Robert Terry, Wichita Falls; Dudley Viles, Odessa; Stephen Weaver, Junction, and Cary Wilkins, Hempstead

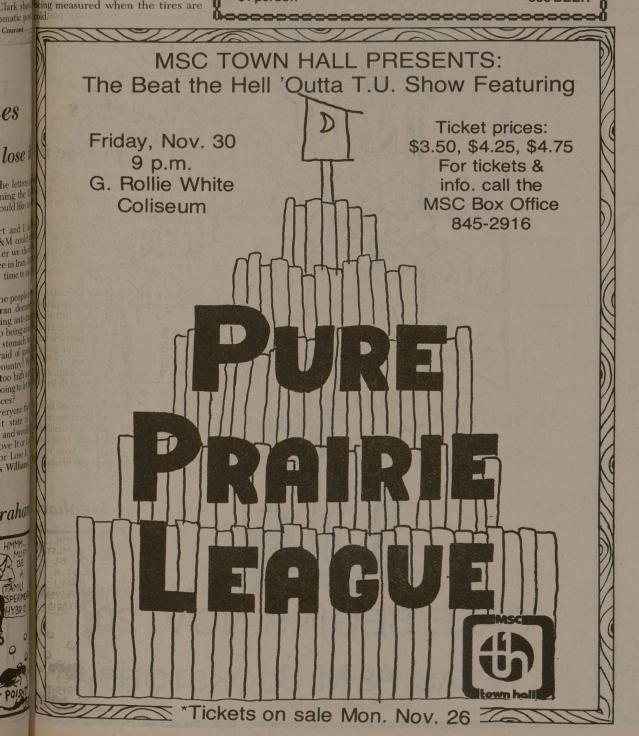

Fuel saving tip: Keep right tire pressure

Regardless of the size and type of a , chances are the vehicle tire sure is maintained close to the the proximately 24-32 PSI.

The rolling resistance of undernlated tires is much higher than hat of properly inflated tires, costready all mg as much as one mile per gallon. to ffr. ke mining a recommended 28-32 PSI

## It's not exactly a checking account and not exactly a savings account.

### But it does pay bills. And it does pay interest on everyday money until you need it.

The time has come to earn interest on the everyday money you use to pay bills. Regular checking accounts don't pay interest. The MoneyStore pays you the maximum interest permitted by law until the day you need to pay bills.

And the MoneyStore pays your bills direct — after you authorize payment by telephone. No more checks to write, no envelopes to address, no stamps to buy. Just call the MoneyStore, tell us who to pay and how much and we'll pay your bills.

MoneyStore is new. It's completely safe, it's confidential, it saves time and it earns interest on everyday funds until you need them.

For information about MoneyStore. call or visit:

College Station Branch: Texas Ave. at Southwest Parkway • 696-2800

Main Office: 2800 Texas Avenue / Bryan, TX 77801 / 779-2800
