

Nine polling stations set for campus spring elections

By ANGELIQUE COPELAND
Campus Staff

Monday was the last day to file for candidate positions for the spring elections.

The election covers positions for student government, Residence Hall Association, Off-Campus Aggies, yell leaders, class councils, and the Graduate Student Council. Elections will be held April 1-2 and run-offs will be April 8.

Nine polling places will be set up for students to vote during the two

days at the Commons, Sbis, the Guard Room, Kleberg Center, Zachry, Rudder bus stop, Memorial Student Center, the veterinary school and the walkway between Harrington and the Sterling C. Evans Library.

Students must have their ID cards to vote.

Bruce Russell, election commissioner, said there had been some confusion in the past about what ward or precinct the off-campus students fall into when voting for senators and OCA representatives.

The off-campus students are divided into four wards, and representation in the senate is based on the number of students living in the ward.

Russell said the dividing line for the wards is the intersection of Texas Avenue and University Drive.

Ward One encompasses Plantation Oaks, Briarwood, Sundance and Sausalito apartments.

Ward Two includes Sevilla, Scandia and Viking apartments.

Russell said that Ward Three is the area east of Texas Avenue and north of University Drive.

Ward Four is the Northgate area.

Russell said that students will fill in their classification, college and where they live, and that will be checked against which ward they vote in. While a student can vote in the wrong ward, Russell said the ballot would not be counted if a student votes in more than one of the divisions.

Showboat' docking at Rudder Thursday

By BECKY SWANSON
City Staff

A bit of the muddy Mississippi is coming to Texas A&M University in the form of the Broadway musical Show Boat. The Gingerbread Productions' performance is being presented by the MSC Town Hall and SPAS committees.

In its first national tour in over 30 years, the show will be staged in Rudder Auditorium Thursday at 8:15 p.m.

The show stars Forrest Tucker and Muttley McQueen and features music by Oscar Hammerstein.

"Show Boat" tells the story of the men and women who live and work aboard the "Cotton Blossom," a show boat plying the waters of the

Mississippi in the 1880s.

Captain Andy, played by Tucker, is the warm and charming father figure to this group of performers who somehow holds everyone together.

The plot deals with the Captain's daughter running off with a gambler, her ensuing marriage, separation and reunion.

The play's musical score features the songs "Ol' Man River" and "Can't Help Loving That Man."

Tickets for the performance are on sale at the Rudder Box Office. General public tickets are \$6.90 to \$10.75 and student, date and child tickets range from \$5.85 to \$9.15.

For more information call 845-2916.

Bring us your tired...
your scratched...your
worn-out speakers, and
Dyer will give you UP TO
100% of the original
purchase price in trade
on any new pair of
famous name-brand
speakers in stock.

The only point on which all audio professionals agree is that speakers are the most important part of your stereo system; and Dyer Electronics is willing to sacrifice profit to give you the best sound possible. So bring your present speakers (and the sales slip if possible) to Dyer and trade them in. They'll never be worth more than they are right now! Shown below are some of the top quality name-brand speakers waiting for you at Dyer Electronics today!

FISHER
Fisher Speakers...
known for big sound
on medium power.

ALTEC LANSING

The No. 1 name in professional speakers can be in your home tonight. For over 40 years, Altec Lansing has been known for craftsmanship and innovative acoustic designs. Most of the more impressive theatre systems are Altecs; and their sound is what you ought to have in your home. From \$239 to \$529 each.

Infinity

If you like your music to sound like the music... you want Infinity speakers. Virtually all Infinity models use a polypropylene woofer cone that is "acoustically inert" and practically indestructible. The bass response is very accurate and will not deteriorate with age. From \$122 to \$450 each.

GENESIS
physics corporation
Genesis speakers are made by hand, then guaranteed for life.

Accurate sound reproduction is the hallmark of Genesis speakers. From the bookshelf One Plus to the towering Model Three series, all are guaranteed for as long as you live. From \$139 to \$399 each.
