Aggie tailback Ernest Jackson prepares to hit the turf after being swarmed by three Cougars during the early morning hours of the UH-A&M game last weekend. The Cougars won the match 17-13.

## Ag lacrosse team to play

The A&M lacrosse team will return to action this week after a two-week layoff when it takes on Baylor at the San Antonio Lacrosse Club. The Aggies beat the Houston Lacrosse Club 15-14 on Oct. 4. Baylor comes in to College Station on Saturday to take on A&M at 10 a.m. The drill field. Sunday, however, the 1-0 Aggies will travel to San Antonio for the game against the SALC. All matches played this fall are considered to be scrimmages until the regular season begins this spring.

## Women tie for second

The Texas A&M University women's golf team, after finishing today's first round of the Georgia Invitational in first place, has dropped to a tie for second after the second round of competition in Athens, Ga. The tournament in Athens, Ga., attracted 22 teams. Currently in first place is UCLA with a 649 two-round total. Texas host Georgia are next at 651, and U is in fourth at 653. Texas A&M individual scores are as follows: Monica Welch, 159, 3rd; Kim Bauer and Shirley Furgate, 165, 12th; Susan Yantis, 168; Jackie Bertram, 174.

Paintings by Charles Beckendorf

Taxidermy by Joe Hibler

Sponsored by TAMU Poultry

Science Club

Order forms available at display.

## Petroleum Engineers

### The Core Lab Difference

We are the largest independent reservoir engineering and consulting firm in the world and offer the responsibility and growth potential of a large company, but the "visibility" and "recognition" of a smaller operation.

Our Engineering and Consulting capabilities are as diverse as the industry itself, including geological studies, reservoir engineering, simulation and evaluation, supervision of drilling and production operations, as well as computer processing and software services. And, along with major oil companies, our clients include independents and foreign countries.

As an Engineering Professional with CORE LAB, you will find some major differences and unique advantages.

- The opportunity to work on a variety of petroleum engineering and geological challenges worldwide.
- Permanent location, with occasional short-term domestic and international travel assignments.
- Association with some of the top petroleum professionals in the world.
- Direct access to extensive technical expertise and resources devoted to petroleum reservoir engineering and geology.
- Rewards highly competitive with the industry and based on ability to produce.

Consider a career path with CORE LAB... CORE LAB could be the "difference" for YOU!

Our representative will be interviewing on campus on Monday and Tuesday, November 3 & 4, 1980. Come by and talk with us.

An Equal Opportunity Employer M/F

# The last storm won't be your last.

When the weather makes trouble, you can bet a lot of homeowners are wishing they were covered by Anco.

Anco settles claims locally. So you don't have to wait for the approval of some other guy. In some other office. In some other town.

Anco is the oldest and largest insurance agency in the Brazos Valley. They have the experience to make sure your insurance coverage is adequate. And they have the authority to settle your claims on the spot.

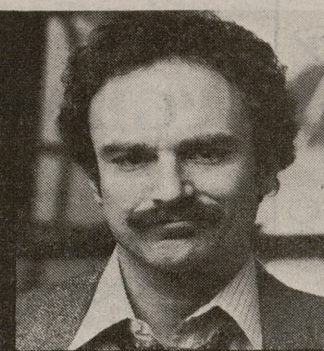

Anco. Because the last storm won't be your last.

No, Mr. Babcock. Yes, Mr. Burns. Never, Ms. Little. Never. Five days of this and I bust loose with Cuervo & grapefruit.

Bust loose with Cuervo Gold. Dash it on the rocks and add a splash of grapefruit. Your mouth's been waiting for it all week.
