Students use pros to edit research

BLACKSBURG, Va. — A new term-paper service here is providing a bit of controversy for Virginia Tech students and faculty.

The company, Editorial Services, advertises that it will help students edit their research papers for a fee of \$10 per hour or \$1.25 per page, whichever is less.

"We don't sell term-papers and we don't write term-papers," says the firm's owner. "Our expertise is in making whatever it is (the author) has to say readable."

Virginia Tech has a strict honor code and students using the service must clear it in advance with their professors. The firm says it assumes the students will get such permission before coming to them. — *Collegiate Headlines*

Smiles turn to growls for Ms. Piggy

MURFREESBORO, Tenn. — Foiled by the jealousy of her competitors, Ms. Piggy didn't reign over the Middle Tennessee State University Homecoming.

Instead, she withdrew from competition after being selected as one of five queen finalists. Her departure was prompted by the "negative attitudes" of other students, said Ms. Piggy, who was actually a MTSU student who wore a pig mask and refused to reveal her identity. — *Collegiate Headlines*
