morning with students filling out information forms, glancing at the interviews - the first step toward life number board, smoothing skirts, adjusting ties and waiting.

after Aggieland.

Representatives of different companies interview students daily until spring break and then some afterrds, said Louis Van Pelt, director of placement at the Career Planning and Placement Center. The Placement Center's semi-annual review showed that 490 major employers recruited at Texas A&M University last fall and that 78 of them were firsttimers. They held 17,077 total stu-

Students should go through interviews at least two semesters so that they will be prepared, Van Pelt said. Ideally, preparation for landing that first job would begin the freshman vear, he said.

Career counselors and faculty advisors are available to help students identify their aptitudes, he said. He emphasized the importance of retaining strong faculty ties, which

Academic excellence is a primary indicator recruiters evaluate in a prospective employee, he said.

"I've not seen any correlation at all between a GPR (grade point ratio) and success in a career, if you can even define success, after gradua-Van Pelt said. "However, when you're looking for employees,

# Science, business pay above average

By TRACEY BUCHANAN

Texas A&M University graduates, on a national average, receive larger salaries and are more eagerly sought than graduates from other schools. said Louis Van Pelt, director of placement at the Career Planning and Placement Center.

He said they have traditionally done better and will probably continue to do so for a number of reasons a strong group of former students, supportive administrators, a caring faculty and a good reputation among

The Placement Center's semiannual review, listing job offers, acceptances and salary offers showed that fall 1980 petroleum engineering graduates received the highest offers, an average annual starting salary of \$26,052.

The College of Engineering reported 621 job offers overall, the highest number of offers reported. The College of Business Administration followed with 150 offers.

A forestry graduate and a history major reported the lowest starting salary offer, of \$9,600 annually

The average monthly salary of (\$15,600 annually), which is higher those reported by the College of Enthan the national average of \$1,219 gineering was \$1,688 (\$20,256 annually). This almost matches the national average of \$1,685.

The College of Sciences reported an average monthly salary of \$1,467 (\$17,604 annually), which is 7.9 percent higher than the national average

The College of Business reported an average monthly salary of \$1,300 The College of Liberal Arts trailed

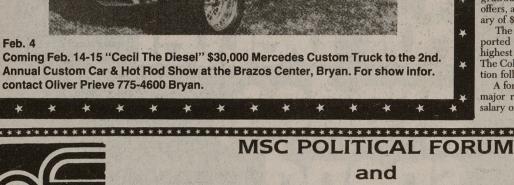

the national average by 3.5 percent with a reported monthly average of \$1,093 (\$13,116 annually)

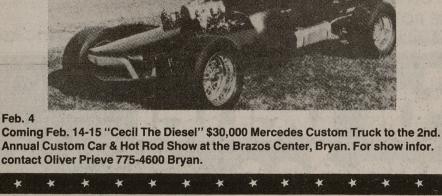

Van Pelt said, "The market is probably depressed in certain liberal arts disciplines, where it's difficult to pin a direct tie between a course

taken and a function and a jo

its called the Nuclear Propulsion Officer Candidate-Collegiate Program (NUPOC-C for short) and if you qualify you can earn as much as \$850 a month right through your senior year. Then after 16 weeks of Officer Candidate School, you'll receive an additional year of advanced technical education. This would cost you thousands of \$\$\$\$ in a civilian school, but in the Navy,

And at the end of the year of training, you'll receive a \$3000 cash bonus. It isn't easy. There are fewer than 400 openings and only one of every six applicants will be selected. But if you make it, you'll have qualified for an elite engineering training job program. With unequaled hands-on responsibility, a \$32,000 salary in four years, and gilt-edged qualifications for jobs in private industry should you decide to leave the Navy later. (But we don't think you'll want to.) For more information: CALL, COLLECT if necessary, (713) 822-5221 or send resume to: Lt. Allie R. Mysliwy
