

THE SENATOR

THE STUDENT GOVERNMENT NEWSLETTER

FEBRUARY 1981

One of the main goals of Student Government this year is to better inform you of our activities. As you learn more about what we're involved in, I hope you have no hesitation to give us your opinion, let us know what other areas you'd like to see us involved in, and in general, give us your gripes so we can better identify where positive changes are needed.

Last November, we printed a newsletter called *The Senator* and passed out 7,500 copies through the dorms, bus stops and the MSC. Yet, with 33,000 students, *The Senator* had a very limited distribution, especially with the off-campus students. With this issue of the newsletter, we decided to go through the battalion in an effort to reach more of our constituency. I hope by reading through the articles you find something that sparks your interest enough to give us a call and share a new idea, voice an opinion or just discuss a concern.

The most important part of these two pages is the list of senators and their phone numbers. In reading over the list,

you will find that you have two senators; one represents your living area, and one represents your college and/or class. Copy down their names and numbers and give them a call, even if for no other reason than to check up on them and let them know you have an opinion. Your call will not be an imposition in any way. The senators want to be called, appreciate hearing concerns from fellow students and will treat your call as a responsibility and an opportunity. Nothing is more encouraging for the senators than seeing that students are concerned enough to voice their opinion and suggest creative, realistic alternatives.

In addition to this newsletter, the student senators have been passing out opinion surveys in the MSC, conducting classroom polls and telephone surveys to both inform you and get your opinion on many issues. Also, the senators have been speaking at dorm councils, wing meetings, college councils and various other student organizations. These speeches provide a chance for you to learn more about current student problems, student

Student Body President Brad Smith lays out some goals for members of the Student Senate.

representation and most importantly, they are a good opportunity to have some questions answered and get your opinion known.

So far this year the Student Senate has discussed everything from allowing a beer pub on campus to increasing the "happy hour" at the Remote Computing Center. There is a lot going on this Spring that you need to know about, and a lot you can become involved with. This month, we're in the process of allocating the 2.1 million dollars you pay in Student Services Fees. This is a chance for you to have a direct voice in how your money is spent by contacting someone on the Finance Committee. If you don't like a rule in the University Blue Book, contact the Rules and Regulations Committee. If you have a gripe about the city government, a local business or if you're just curious about what issues are coming up in the state legislature, talk to our External Affairs Committee. Anything that has to do with a professor, grading policies, Q-drops or curriculum can be handled by the Academic Affairs

Committee. Finally, if you have a gripe about parking, athletic ticket distribution, or anything in general, contact the Student Services Committee. If you want to talk about any issue at all, contact either your senator, Vice President or one of us, and we'll be more than happy to do all that we can.

As the main representative body for students at this University, we have a big responsibility. We're effective only as far as the accuracy with which we represent your desires. Our accuracy is only as effective as your input. I hope these two pages will give you a better idea of what we do and serve as inspiration for you to become involved. Cig'em,

Brad Smith
