SNOW SKI CLUB: Will nominate officers and discuss the trip at $7{:}30~\rm{p.m.}$ in 110 Military Science.

CLASS OF '82: Votes on the class gift at 7:30 p.m. in 137 MSC.

MSC GREAT ISSUES: Dr. Robert Cooper will give a program on "The Weapons Of Space Warfare" at 8 p.m. in Rudder Theatre. Admission is 50 cents for students and \$1 for all others.

HEAVEN CAN WAIT": Warren Beatty is a Los Angeles Rams quarterback who is prematurely called by an overzealous celestial escort in this bittersweet romantic comedy. 7:30 & 9:45 p.m.

Handicapped kids get sweets

Mary Robinette helps less for-tunate children get their share of sweets. She collects money for candy and takes the treats to the Austin State School for Retarded Children.

Gramm says Reagan cuts needed

By JANE G. BRUST

Battalion Staff
U.S. Rep. Phil Gramm voiced
his support for President Ronald
Reagan's proposed federalspending cuts Monday at the
opening address of the Farm and
Ranch Credit Conference for

Commercial Bankers.
"We need to balance the budget," he said. "One thousand programs can and should be cut." The Democrat told 150 bankers

gathered in Rudder Tower he believes the American people are in favor of the spending cuts. And he urged his audience to support

Reagan's program also.
"Ronald Reagan was elected on a clear mandate: 'Put the federal government on a budget like ev-

"It's important that you be very active in supporting these spend-ing cuts," he said. "It's imperative that we get lending back into private hands."
Gramm said that the \$41 billion

cuts would be accepted if voted on

The congressman said if the proposed spending cuts are voted on one at a time, however, the program could be defeated. He said the public would tire of the voting process and "then special interests would dominate

Gramm said the special interest groups should compete against each other for funds and not against the taxpayer.

The representative of the 6th Congressional District pointed out that balancing the federal budget will mean cutting prog-

"That's going to affect people,"

he said. However, Gramm said the idea that the proposed spending cuts would burden the poor is "totally

inaccurate. He said the proposed budget id \$18,000 per poverty

family of four.

The Reagan package simply seeks to tighten eligibility for that funding, he said.

By RUTH M. DALY

Battalion Reporter Every child likes candy, but for some children the sweets aren't as close as the nearest vending

Robinette, a horticultural science technician at Texas A&M University, has been making runs to Austin for 17 years. She started her deliveries to the retarded children in Austin the first Halloween her oldest son, William, was in the school. William, 24, doesn't speak

She said she asked her other

ween candy to send to William and the other children at the school who weren't able to go trick-ortreating for themselves.

Donations from students continued over the years and Robinette expanded the project by collecting extra candy from

shoppers at supermarkets.
She quit collecting candy in 1975 when the risk of getting bad candy became a problem. But she

didn't give up on the project.

Instead, she opened a candy
fund at University National Bank
in College Station. People wishing to help with the project can send donations to the bank, Box 2680, College Station, 77840. She now buys the candy her-

self, usually after the holiday when candy prices are reduced.
Sometimes local merchants Sometimes local merchants donate candy they are unable to rewards for children's accomplishsell. In 1977, a store in the Manor

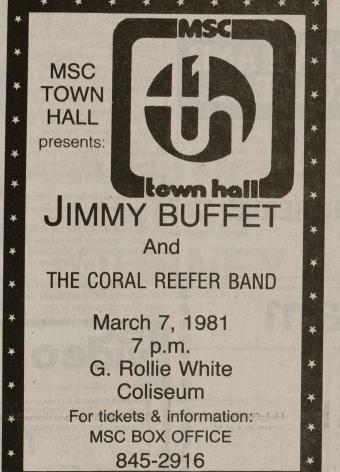

two children's teachers to have their students donate extra Halloworth of leftover Valentine candy.

The biggest season for donations is Christmas, Robinette said. Donations come from various people — from merchants to students — and that sometimes donors are anonymous. The amount of money she collects yearly varies,

she said. Two weeks ago, Robinette delivered more than \$60 worth of Valentine candy to Austin when she attended her son's yearly eva-

Robinette said she or her husband, James, takes the candy to Austin when she has enough for the 1,000 kids at the school.

Volunteer workers at the school frequently write thank-you notes and receipts for donors, she said. And all donations are taxdeductible.

EXPERIENCE IT!

THE MOST SOPHISTICATED TRAINING GROUND FOR NUCLEAR ENGINEERING ISN'T ON THE GROUND.

you'll have immediate decision-

It's on a Navy ship.

The Navy has more experience with nuclear power than anyone else in America. To date, over 1,900 reactor-years of nuclear power experience. With a nuclear program like that, the Navy has developed the most comprehensive and sophisticated nuclear training available.

First, you'll get a full year of advanced technical training. Outside of the Navy this program would cost you thousands. In the Navy, we pay you. As a commissioned officer,

making authority supervising highly trained personnel while operating the most sophisticated nuclear propulsion plants ever developed. You get important management responsibility fast. Because, in the Navy, as your knowledge grows, so does your responsibility.

So if you're majoring in math, engineering, or the physical sciences, send in the coupon. And head for the most sophisticated training ground for nuclear engineering...the Navy.

NAVY OFFICERS GET RESPONSIBILITY FAST.

SENIOR ENGINEERS: Sign up now to interview with Arkansas Power & Light.

Arkansas Power & Light Company representatives will be on the Texas A&M campus on Tuesday, March 10, to discuss career opportunities with electrical, mechanical and nuclear engineers.

A part of the Middle South Utilities System, AP&L is Arkansas' largest electric energy supplier with over 4,200 professionals and is recognized nationally as one of the leading utilities in America. Engineering opportunities are available in both coal-fired and nuclear-fueled power plant operations and maintenance, project support, power system distribution, customer service engineering, instrumentation and control, and communications.

Sign up now for an interview with AP&L at the University Placement Office.
