Local

Man makes minor repairs — have tools, will travel

Mobile mechanic answers local house calls

By SHEILA FRAZIER
Battalion Reporter
"Have tools, will travel" — that's what the back of his van reads and that's what he does for a living.
Glenn Butler, of 2307 Nuches Lane, Bryan, is an auto mechanic on wheels. The specialty of his service is house calls for minor car repairs in Bryan and College Station.
Butler has been a mobile mechanic for seven years. His blue and white '68 Chevrolet Stepvan advertises his service and carries the tools of his trade.
Butler said his service is good for students, the elderly and any-

one not wanting the hassle of having to wait all day in an auto repair shop or the extra cost of towing.
He said he came up with the idea when he was offered the ownership of an Illinois service station where he had worked for 15 years. But he said he wanted to stay in mechanics and to be his own boss.
Butler said he came here because his wife was from Navasota, and he had been stationed previously at Bryan Air Force Base, where he worked as an aircraft mechanic.
Butler, 42, said that when he began his business in 1974, he was on call 24 hours a day for car repair appointments. He worked every

day of the week. He advertised by passing out fliers and taking out small ads in the newspaper.
Two years later he worked six days a week, two years after that he cut his work load to the present 12 hours a day, five days a week.
After he had worked a while, word-of-mouth was the best advertiser for him, Butler said.
He said he had once tried work-

ing with a partner, but it didn't work out. He said working with a partner would be difficult because he wouldn't be able to ensure the quality of work he wants.
Butler charges \$7 base fee for Bryan, \$8 base fee for College Station plus \$12 an hour. If extra parts are needed, he carries replacements in his van or he will buy parts from the closest auto parts

shop and add the cost to the bill.
Butler has four children, including a 17-year-old boy who shares his father's interest in mechanics. "Hopefully my son will take over my business one of these days, if he wants it," he said.
"I enjoy what I do but the older I get the less I enjoy it." He folded his grease-stained hands on the

table and said it's getting harder to keep up with new car models because of additions like pollution control devices.
Butler said he thinks auto engineers should be mechanics first. "You wonder where they get those engineers," he said with a faint smile. "Seems like they build things to wear out, not to last — I could be wrong."

Meetings set for candidates

Candidates for the 1981 general election must attend a mandatory meeting, which will be held after they have filed for a particular position, Greg Dew, executive vice president for Student Government, said Wednesday.
In addition to the positions that are unfilled, 38 other positions have only one person running.
The meetings will be held March 22 and 23 at 7:30 p.m. in the 110 Harrington Classroom Center. Dew said the campaign guidelines for candidates will be discussed. He stressed that all candidates, including write-in candidates, must attend to be considered formal candidates.
Dew said it's "legal" to campaign for a write-in candidate; however, his name will not appear on the ballot.
He also said there are several positions in the student senate without filings. These include: one senior and one graduate student representative from the College of Liberal Arts; one College of Medicine representative at-large; one University Apartment representative; one representative of Keathley, Fowler and Hughes halls and the modular dorms.
Also open are two places for off-campus Ward 2 representatives and one representative of Ward 3. Ward 2 is the area south of University Drive and west of Texas Avenue. Ward 3 is north of University Drive and east of Texas Avenue.
Four spaces for off-campus graduate student representatives are open; candidates don't need to live in a particular ward, he said.
Dew said there are 15 positions open in the Graduate Student Council. These include: one representative from the College of Science and one from the College of Veterinary Medicine; two from the colleges of Education, Engineering, Geosciences and Liberal Arts and five from the College of Agriculture.
Candidates are allowed a \$75 campaign budget, instead of the \$65 limit printed in the general election regulations handbook. Dew said the \$65 limit was a misprint.
Election dates are March 31 and April 1.

E-Systems continues the tradition of the world's great problem solvers.

Recognized with Archimedes and Newton as one of the three greatest mathematicians, Karl Gauss also pioneered math in astronomy, gravitation, electricity and magnetism.
E-Systems engineers are continuing in his footsteps today. They are pioneering technology and solving some of the world's toughest problems in electronic transmission and signal-reception in an interference and noise background using basic Gaussian concepts.

E-Systems "pioneering" in communications, data, antenna, intelligence and reconnaissance projects results in systems that are often the first-of-a-kind in the world.
For a reprint of the Gauss illustration and information on career opportunities with E-Systems in Texas, Florida, Indiana, Utah or Virginia, write:

OFFICIAL NOTICE
COLLEGE OF SCIENCE
English Proficiency Examination
ALL JUNIORS and SENIORS
In curricula of the College of Science must take the English Proficiency Examination on
WEDNESDAY, MARCH 25, 1981,
AT 7:30 P.M.
BIOLOGY Department Curricula... Room 113 BSBE
CHEMISTRY Department Curricula Room 231 CHEM
MATH Department Curricula... Room 101 Milner
PHYSICS Department Curricula... Room 301 PHYS

In order to qualify as a candidate for a degree in the College of Science, each student must demonstrate an ability to express himself (or herself) in acceptable English. This requirement may be satisfied by (1) passing an examination in English composition (EP5) taken not later than the spring semester of the junior year, or (2) completing English 301 with a minimum grade of "C".

ANY STUDENT WHO FAILS THE WRITTEN EXAMINATION (EPE) MUST SATISFY THE ENGLISH PROFICIENCY REQUIREMENT BY TAKING ENGLISH 301 AND EARNING A MINIMUM GRADE OF "C".

For information and guidelines on the nature of the examination, check with the departmental secretary. 11219z
