Men's golf

The Texas A&M men's golf team returned from the Houston All-America Intercollegiate golf tournament with an eighth place finish.

Oklahoma State captured the tourney, held at the Masters Course at Bear Creek Golf World, for the fifth time in six years with a score of 1,178. LSU was second with 1,187.

Texas A&M, finishing in eighth at 1,206, was paced by Richard Cromwell and Brad Jones who both posted a tournament total of 298.

Danny Briggs shot an even 300 and Bart Cobb finished with 310 in the four-day tourney.

The Aggies are idle this weekend, preparing for the Southwest Conference championships in Tyler, April 17.

Men's lacrosse

The Texas A&M men's lacrosse team sent the Texas Longhorns home Sunday with 20-2 thrashing at the main drill field.

Leading scorers for the Aggies were Carl Hayes and Al Adler, both with five goals for the afternoon. Ken Foulz also scored for the Ags, connecting three times.

Saturday, the Aggies defeated Sam Houston 13-7. The team, now 8-3 for the season, returns to action in Dallas this weekend when they play the Trinity Lacrosse Club, on Saturday, and the Dallas Lacrosse Club, on Sunday.

The Aggies will close out their season April 24-25 when they host Houston and Baylor.

Pistol team

The Texas A&M pistol team was in Cambridge, Mass. Saturday competing in the National Intercollegiate Pistol Match where they finished as the sixth-ranked team in the nation.

Four team members and one individual competed for the Aggies in the match: Edward Koester, Chip Miles, Lee Alexander, Bud Sullivan and Bill Little.

Little, competing individually, finished in the 28th position.

Spring sports special

A special ticket bargain, sponsored by the athletic department, enabling fans to see all university-related games this weekend is on sale at the athletic ticket office.

The ticket, selling for \$5, would enable the ticketholder to save \$8 on the general admission charge.

The ticket is good for the three-game baseball series with Arkansas; the Arkansas-A&M tennis match; the women's softball tournament and the Maroon-White football game.

Pictures needed

The Texas A&M Athletic Department is trying to find some good football and basketball pictures from this past season for publication. Any interested photographers should contact Fred Battenfield in the Sports Information office.

Viridon chooses starting pitchers

United Press International
HOUSTON — Manager Bill Viridon has selected veterans Joe Niekro, Don Sutton and Nolan Ryan to pitch the Houston Astros' opening series at Los Angeles and to form the basis for his rotation this season.

Vern Ruhle and Bob Knepper will share duty as Viridon's fourth starter, and Joaquin Andujar and rookie Bobby Sprowl are to be the Astros early-inning relievers, Viridon said from Sun City, Ariz.

The defending National League West champions played exhibition games Monday and Tuesday in Arizona before traveling Wednesday to Los Angeles in preparation for their Thursday afternoon opener.

The initial pitching matchup features the Dodgers Jerry Reuss vs. the knuckleballing Niekro, who has never before started a season opener despite a 136-120 lifetime record and 41 wins the past two seasons.

"I think I'm a more confident pitcher now than ever," Niekro

said, "and maybe that comes with gaining a little respect around the league."

He added that in each of his last two spring performances he felt strong enough to pitch nine innings.

Disabled pitcher J.R. Richard has been the Astros opening day starter for the past five years, and he will accompany the Astros to Los Angeles. He continues to rehabilitate from a July 30 stroke.

An off-day Friday gives Sutton, a Dodger for 15 seasons, a Saturday assignment against his ex-teammates. The Astros signed Sutton after last season as a free agent.

Ryan will pitch Sunday. The Astros first three starters have 44 Major League seasons between them. Niekro is 36 years old, Sutton is 36 and Ryan is 34.

Ruhle, 30, was the mainstay of Houston's division-title drive last September in the absence of Richard, and he will start the Astros home opener Monday against Atlanta.

Leonard, Hearn schedule fall bout

United Press International
NEW YORK — World Boxing Council champion Sugar Ray Leonard and World Boxing Association title holder Thomas Hearns have signed for a welterweight championship showdown this fall that could be the richest fight in boxing history.

Leonard, 29-1, and Hearns, 30-0 with 28 knockouts, will battle for the unified title in late September or early October. No site has been set but the leading cities under consideration are Houston, New Orleans and Las Vegas.

Leonard will receive a guaranteed purse of \$10 million plus a share of the ancillary rights. Hearns will get \$5 million plus a percentage of the rights. The fight quite easily could surpass the record \$30 million gross set last November when Leonard regained his title against Roberto Duran in New Orleans.

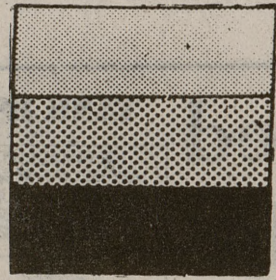

Mike Trainer, Leonard's attorney, and Emanuel Steward, who handles Hearns' business matters,

met last week in Syracuse to nail down the negotiations. The fight will be promoted by a new group called "Championship Events." The group includes rock promoter Shelly Finkel, who has put on concerts for noted stars such as Billy Joel and Olivia Newton-John, and Dan Duva, who runs a successful fight program in Totowa, N.J.

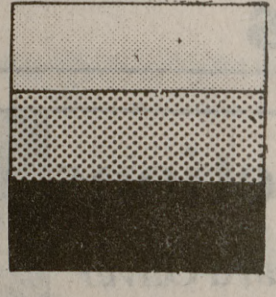

Trainer and Steward met with Finkel last Friday morning at the Syracuse Airport to finalize the deal. Hearns, who had previously demanded the same amount of money as Leonard, finally signed on Thursday and Leonard agreed the following day.

Leonard is scheduled to fight unbeaten champion Ayub Kalule, a Ugandan now fighting out of Denmark, for the WBA junior middleweight championship in June. Kalule is 36-0.

Hearn will defend his title on April 25 against Randy Shields in Phoenix.

80Z Changer-Turntable

It is primarily in its computer-locked digital drive format that the 80Z differs from our other changer-turntables. In addition to controlling actual platter speed to within .01 rpm of your setting, the MPU unit lets you change it — the digital display lets you monitor it. In addition, the MPU incorporates a 100-minute stopwatch. The 80Z also gets the most refined of our tone arms with a plug-in tube that combines minimum mass with convenience.
