## Plans for controversial Big Bend ranchland exchange fall through

**United Press International**  
AUSTIN — Despite the efforts of Gov. Bill Clements, a plan to acquire a Texas businessman's ranch in Big Bend for designation

as a state wilderness park has fallen through.

Atlantic Richfield Co. Chairman Robert Anderson said Tuesday he no longer was interested in

exchanging his 190,000 acre-ranch in the Big Bend area for land the University of Texas owns near El Paso.

Anderson issued a statement from Roswell, N.M., where he heads the Diamond A. Cattle Co., saying he was withdrawing from the proposed deal because of the controversy surrounding it and the fact the mineral values given the University of Texas would exceed the value of the surface land involved.

Texas officials have been trying for the past two years to acquire the land owned by the Atlantic Richfield Co. chairman, Gov. Bill Clements, a longtime friend of Anderson, became involved in the negotiations this year and reportedly had worked out the tentative land exchange deal.

UT officials were not enthused by the proposed deal but the Texas Legislature had passed a resolution urging the regents to "consider" the trade under which UT would retain mineral rights to

the land it traded away as well as to Anderson's ranch.

In his statement, Anderson said he appreciated the efforts of Clements and many others "to acquire this unique property for present and future generations of the state of Texas."

"I have felt from the outset that the proposed exchange was not only extremely favorable to the state of Texas but the mineral values to be conveyed to the University of Texas exceeded the value of the surface land involved in the exchange," his statement said.

"Unfortunately, the controversy that has been stirred up not only clouds the true merits of the transaction but clearly makes it inadvisable for us to continue discussions."

House Speaker Bill Clayton said he had heard reports of possible gas exploration on Anderson's ranch.

"I heard there was a little gas play down there now," he said.

### IT DOES MATTER WHERE YOU LEARN TO FLY

Cessna Pilot Center Courses are all programmed for productivity. This means that every step in the process has been tried and tested. There are no false starts, no needless duplications, no unnecessary steps to slow you down.

When you fly the CPC way, you'll find that your time, money and efforts are used with maximum efficiency. Every lesson is programmed in a building block sequence. Guaranteed to give you the most meaningful learning experience with the fewest number of detours.

Try it yourself with a special CPC discovery flight which includes a pre-flight briefing, a supervised flying experience with you at the controls, and a post-flight review—all for only \$20.00.

Call or come out to:

### \*\*\*\*\*REGISTRATION INFORMATION\*\*\*\*\*

**WHERE: 224 MSC**

**WHEN: Wednesday, June 10**

**TIME: 12noon-5p.m.**

**Who:** Anyone may take a Free U class that can make the class meetings. Needed For Registration: Pen and Full Payment-Check or Cash.

#### Class Locations and Meeting Times:

All classes will be held on the University campus and in the evenings, unless otherwise stated in the brochure. Please take note of this and make arrangements accordingly.

#### Interested in Teaching:

The Free U Committee is presently taking applications for those interested in teaching for Free U fall courses.

**\*\*No phone registration  
\*\*No pre-registration**

For more information call 845-1515 or stop by the Free University cubicle in room 216 MSC.

### \*\*\*\*\*CLASSES OFFERED\*\*\*\*\*

#### DANCERCISE

The purpose of this class is to shape up while learning dance movements. The class will be a mixture of ballet, jazz, and floor exercises. (For Women Only) Monday's class will meet 6:30 - 7:30, June 15, 22, 29, July 6, & 13. Wednesday's class will meet 6:30 - 7:30, June 17, 24, July 1, 8, & 15. Instructor: Julia Mashburn Cost: \$7

#### BEGINNING C & W DANCE

Beat the rush to the Hall of Fame and impress your friends with your improved dancing. Learn to Two-Step, Cotton-Eyed Joe, Schottische, and Jitterbug. Come for the class and stay for the rest of the evening at the Texas Hall of Fame. No partners needed! Class will meet Tuesday, June 16, 23, 30, July 7, & 14 from 6:15-7:30 p.m. Instructor: Ford & Sandra Taylor Cost: \$12

#### JITTERBUG

Be the hit of the dance floor—learn to Jitterbug! Class will begin with the very basics and will advance as the ability of the class progresses. A variety of spins, turns, pretzel, aerials (if the class desires), and much, much more! No partners needed! Class will meet on Saturday nights from 6-7 for 5 weeks. Instructors: Mike McCarley and Sherri Cobb Cost: \$7

#### ADVANCED C & W DANCE

Learn many advanced moves in Jitterbug. Learn to turn to the left and right while dancing the Two-Step, Polka, and Waltz. Learn to do Jitterbug moves while Two-Stepping, Waltzing, and doing the Polka. All this and more, taught at the Texas Hall of Fame. No partners needed! Class will meet Thursdays, June 11, 18, 25, July 2 & 9, from 6:15 - 7:30. Instructors: Ford & Sandra Taylor Cost: \$12

## Protest causes change in Gilley's concert location

**United Press International**  
PASADENA — The owner of Gilley's Club has changed his plans and will hold a Fourth of July outdoor concert at the city rodeo grounds, moving it from his club parking lot which is near a hospital.

Sherwood Cryer, owner of the club located on 21 acres of land, said he made his decision Tuesday night as "an open effort to get along with the community."

Cryer plans to meet today with Mayor Johnny Isbell to work out details of the two-day concert.

For two weeks citizens and hospital officials have been protesting the planned concert, which is expected to draw 10,000 people. Hospital officials said the noise and crowds could effect the

patients, some recovering from heart surgery. Don Francis, administrator of Pasadena Bayshore Hospital, said the traffic near the club and hospital would be hazardous for emergency vehicles. He estimated more than 30,000 would attend the concert.

"The concert will devastate our ability to care for people," Francis told the council Tuesday. "The noise has got to be mind boggling. There is tremendous concern about the staff and patients having access to the hospital."

About 150 citizens attended the city council meeting.

"I was very pleased that Mr. Cryer was open to discussion on the issue especially since we both knew that legally he could have held the concert right where he was," said Isbell.

### Ridleys endangered

## Turtles get new home

**United Press International**  
PORT ARANSAS — Marine scientists gave about 1,500 Ridley sea turtles a plane ride and a new home in an effort to encourage the endangered creatures to adopt new spawning grounds on the Texas Gulf Coast.

The Ridleys, the most endangered species of sea turtles in the world, were released along a 20-mile stretch, five miles offshore from Port Aransas Tuesday, shortly after arriving from Galveston on an airplane.

Scientists hope the 1-year-old Ridleys, brought to Galveston last summer from a Gulf Coast beach in Mexico, will adopt new spawning grounds on the beaches of Padre Island.

The turtles had grown to a length of about 8-10 inches during

their year of captivity from the size of a silver dollar at birth.

For the next 30 days, scientists will monitor the turtles' dispersal patterns with small radio transmitters which were attached to ten of the Ridleys, said Jim Woods, a biologist at the Padre Island National Seashore.

Tuesday's release was the third in the last three years for the Ridleys, as marine scientists attempt to "imprint" into the turtles' biological system the desire to return to Padre Island beaches to spawn.

Scientists say they will be judge their success in seven years, when the first of Ridleys released in 1974 enough to spawn.

In the meantime, a new of Ridley turtle eggs, scoured before they had a chance to hatch in the sand at Rancho Nuevo, arrive soon in Galveston, where they will be raised until and released at Padre Island.

"There is nothing more important than the survival of these turtles," said Jim Woods, a biologist at the Padre Island National Seashore.

In the meantime, a new of Ridley turtle eggs, scoured before they had a chance to hatch in the sand at Rancho Nuevo, arrive soon in Galveston, where they will be raised until and released at Padre Island.

Lutano is selling a piece of paradise. He owns a Caribbean island, former home of pre-Colombian Indians, pirates and British plantation owners.

Lutano said the 500-acre island, about 40 miles from Honduras, has a selling price of \$2.9 million.

The island, Morat, is part of the Bay Islands, which includes Roatan, a resort with several hotels. Lutano said the island has electricity, a protected harbor, communications and no mosquitoes or poiso-

nous snakes.

The island is covered with palm and trees, and near the 30-acre lagoon is a barrier.
