# Oakland stops Texas 5-2

United Press International  
ARLINGTON — If they could rig it the Oakland A's would probably love to face the Texas Rangers in the first round of baseball's marathon post-season playoffs.

But to do that the A's would probably have to lose a few games to the Rangers while the regular season is still going on and that seems to be next to impossible.

Oakland handled Texas with dispatch Monday night, jumping on the staggering Rangers for four early runs and relying on another steady performance from Rick Langford to come away with a 5-2 decision.

The game had a certain drab tint, which even Oakland manager Billy Martin had to admit.

"Yeah," he said, "it was dull, but it was a nice kind of dull. Texas had a chance to come back, but Rick shut them down and he pitched good after that."

"It's good when you get some early runs behind you," said Langford, who evened his record at 9-9. "That way you can keep them from getting momentum."

On a staff that makes a habit of staying around to the finish, Langford has stayed around longer than

anybody this year. He went the distance for the 15th time Monday night, a total that leads the league, and had only one shaky inning in surrendering seven hits, walking one and striking out one.

Langford's one lapse came in the second when Texas got its only two runs on consecutive singles by Buddy Bell, Pat Putnam and Jim Sundberg along with an RBI ground out from Tom Poquette.

Only four other Rangers reached base the rest of the night.

Cliff Johnson figured prominently in the early Oakland heroics,

doubling in the first and scoring the A's initial run on a single by Tony Armas. Then, in the second, Texas loser Doc Medich, now 8-5, walked the first two men he faced and delivered a run-scoring single to Dave McKay.

After a two-out intentional walk to load the bases Medich faced Johnson again and the A's designated hitter blooped a single to center that scored two runs and gave Oakland a 4-0 lead.

The other Oakland run came in the sixth on a homer by Wayne Gross, his ninth of the season.

Oakland climbed back to the .500 mark for the second portion of the season while the Rangers and their weak bats dropped four games below the break even mark.

## Cowboy center Shaw on doubtful list for game

United Press International  
DALLAS — Dallas Cowboys center Robert Shaw has been placed on the doubtful list with a strained knee, meaning the club will likely have to undergo another round of changes in the offensive line when it meets New England next Monday night.

Shaw hobbled to the sidelines

during Dallas' 30-17 win over St. Louis last Sunday, requiring starting right tackle Jim Cooper to move to the center spot. Backup tackle Andy Frederick came in to replace Cooper.

Dallas' other full-time center, John Fitzgerald, was placed on the injured reserve list before the start of the season and for him to rejoin the Cowboys he must clear waivers.

The club, however, cannot attempt to make that move until four weeks deep in the season.

# Bench, Berenyi lift Reds past Astros 4-2 in Dome

United Press International  
HOUSTON — The Cincinnati Reds stole a page from the Houston Astros to kick off a marathon, put-up-or-shut-up road trip — getting powerful pitching from Bruce Berenyi and a swarm of singles in the spacious Astrodome.

The timing couldn't have been better for the Reds, who hotly hitting first baseman Johnny Bench said had to "either move it or milk it" with 19 games to play and time running out.

By virtue of a 4-2 win over Houston Monday night, the Reds moved to within 3 1-2 games of the first-place Astros, but three other teams besides Houston remained in front of Cincinnati — a fact which made their situation almost dire as they face 12 more games on the road before going home.

"When our backs were against the wall," Bench said, "we started moving. This ballclub has been up and down, and it better be on an upswing now or we'll watch the playoffs from our living rooms. We have to win a great number of our games and get help from somebody else."

Bench continued his torrid second-half at the plate Monday, driving in three runs and rapping three hits to boost his batting average since the end of the players' strike to .480.

Dave Concepcion contributed three hits including the only dou-

ble in the Reds' 11-hit attack, but Berenyi was the force that stopped Houston's 12-game home win streak. He allowed only four hits and struck out 12 batters, nine in a streak from the fourth inning to the ninth when he set down 20 straight hitters.

"All I threw were the fastball and the slider. They were both working well. I kept telling myself before the game that I was gonna mix a couple of change-ups in, but I didn't need to," Berenyi said.

Unfortunately for the Reds, they can't take a winning combination — Berenyi pitching in the Astrodome — with them on the road. He's 3-0 under a roof this year, and his performance Monday was his best, Astros Manager Bill Virdon said.

"That's about the best stuff and the best natural stuff as I've seen in a long time. His fastball and his

breaking ball are similar to J.R.'s stuff," Virdon said, referring to idled Astros all-star pitcher J.R. Ricard.

Berenyi pitched under pressure the entire game partly due to Bench's fielding error in the first inning. He failed to barehand a grounder, and Houston pushed across an unearned run later in the inning to tie the score 2-2.

Bench's two-run single in the first temporarily gave the Reds a lead, and with his team leading 3-2 in the eighth, he singled to send Concepcion home from second base with an insurance run.

## YOU CAN WAIT YEARS FOR A JOB WITH RESPONSIBILITY, OR YOU CAN GET RESPONSIBILITY IN THE NAVY NOW.

A civilian job with responsibility may take years to obtain, even with a college degree. But if you meet Navy standards, after four months of Officer Candidate School (OCS), you can become a Navy officer. And that means lots of responsibility, a good salary and fringe benefits, including travel, post-graduate educational opportunities, 30 days' paid vacation earned annually, plus more.

If you're getting your degree now, contact your college Placement Office to find out when a Navy Representative will be on campus. Send your resumé or call:

For more information call the Naval Management Programs Office at (713) 224-1756. Call collect if necessary. Your Navy representatives will be on campus in the Memorial Student Center 22-24 September.

**NAVY OFFICERS GET RESPONSIBILITY FAST.**

## September 15, 1981 TO THE FACULTY

Dear Colleagues,  
On Monday, May 4, 1981 a brief questionnaire was sent to all members of the Texas A&M University Faculty. It asked for a response to two statements. They were as follows:

- Please check one:
- I am interested in increasing the faculty's role at Texas A&M, and I support the investigation into the methods by which that goal may be achieved.
- I am not interested in increasing the faculty's role at Texas A&M, and I do not support the investigation into the methods by which that goal may be achieved.

Optional:

Name \_\_\_\_\_ Rank \_\_\_\_\_ College \_\_\_\_\_

The responses to these questions produced the following results.

1) Number of responses -	594
2) Yes	538 (91%)
3) No	40 ( 8%)
4) Undecided	7

The positive responses were spread fairly evenly throughout the ten colleges of the University. The number of positive (yes) responses in the ten colleges was as follows:

Agriculture	Architecture	Business	Education	Engineering
78 of 92 = 85%	19 of 20 = 95%	19 of 21 = 90%	30 of 31 = 97%	67 of 81 = 83%
Geo. Sciences	Liberal Arts	Science	Medicine	Vet. Medicine
31 of 32 = 97%	95 of 97 = 98%	62 of 64 = 97%	25 of 25 = 100%	34 of 38 = 89%

The faculty whose names are listed below prepared the questionnaire in response to the suggestions and concerns of a considerably larger number of faculty who have expressed a long-standing interest in enhancing the role of the faculty in university governance at Texas A&M.

Because of the very affirmative response to the questionnaire, we now seek advice on how to proceed further. We also encourage all interested members of the faculty to join with us in this important endeavor, by contacting one or more of the signatories listed below.

To encourage the participation of the faculty at large, we are calling a meeting of all interested faculty on October 15, at 4 p.m. in Rudder Theater.

- Signatures on the original questionnaire:

# An important message to every graduating senior regardless of field of specialization.

If you've been seriously considering a career in programming, now is the time to talk to ARCO Oil and Gas Company in Dallas.

Your degree and at least six hours of computer courses are the keys to our informative, comprehensive training program. This is not "on-the-job training." This is a formal training program that will provide the knowledge and tools you need to become a top-notch programmer... within a fast-growing division of Atlantic Richfield Company.

You will enjoy working in a professional environment with ready access to one of the largest, most sophisticated hardware installations in the country.

You'll have the opportunity to move up fast in a systems/programming department that offers clear-cut career paths to more responsible advanced programming, systems analysis and/or management roles.

Salaries and benefits are fully commensurate with education and experience. For more details on the future you'll enjoy with one of the nation's top ten energy companies, sign up at your Career Counseling and Placement office for an interview with our representative who will be on campus this semester.

Please bring a copy of your transcript to the interview.
