AMERICAN SOCIETY OF PERSONNEL ADMINISTRATIONS: Patrick McConnell of Mosteck will be speaking in 510 Rudder Tower at 7:30 p.m. Other information about future meeting will be announced.

Cholera outbreak linked to Texas offshore oil rig

United Press International
NEW ORLEANS — State health officials have traced 13 cases of cholera to an offshore oil rig in the first outbreak of the disease in Louisiana since 1978.

Dr. Charles Caraway, director of disease control for the Office of Health Services and Environmental Quality, said nine cases of the disease had been confirmed and four more were suspected.

Two men with suspected cholera were hospitalized in

Rayne but were expected to recover, Caraway said Saturday. The others victims had already recovered.

Caraway said a 23-year-old man was the first to contract the disease while working on the rig near Port Arthur. He became ill Sept. 21 and returned to Louisiana two days later.

The source of the cholera had not been determined, Caraway said, but a contaminated water tank on the rig may have infected

food or drink.

Proper sewage disposal should confine the disease, he said, and there is no danger to residents of Louisiana or Texas. Cholera is an intestinal disease characterized by sudden diarrhea, vomiting and rapid dehydration.

"With proper treatment, the fatality rate is less than 1 percent," Caraway said. "Mild cases with only diarrhea are common, especially in children."

1981 Muster Speaker
FRED McCLURE
will speak

Texas migrants have deplorable housing

United Press International
Many of the 60,000 migrant and seasonal laborers who gin the cotton and pick the fields of Texas Panhandle growers live in conditions described by a Texas congressman as deplorable and inexcusable.

Near Hereford, Yolanda Valdez told touring Rep. Henry Gonzalez, D-Texas, the family moved from Texoma, Okla., where three families shared a two-bedroom house and \$250 a month rent. Before that it was Dimmitt, where the family found work rooting a sorghum field.

Now — after moving up to better things — Valdez, her husband and six children still pay \$180 a month to live in a wooden, two-room house, heated only by a flame on the stove.

Gonzalez' brief visit late last week was only part of a tour that included the best and worst of migrant farm labor housing. He said he came to the Texas Panhandle to bring in "the human element" and review the administration of housing programs "in the field."

Gonzalez' greatest disappointment came in Dimmitt, where officials only recently closed part of a run-down, privately owned, camp. Many of the one and two-room wooden shacks had holes in the roofs and floors, and walls were reinforced with chicken wire.

"Naturally, this is very disappointing," Gonzalez told gathering reporters. "It is inexcusable. We can't shut our eyes to this deplorable situation."

Gerry Mc Murry, staff member of Gonzalez' House subcommittee on Housing and Community Development, said living conditions in the 50 to 60 labor camps in the Texas Panhandle range from adequate to intolerable. He blamed much of the problem on the rules, regulations and indecisiveness of the Farmers Home Administration, which oversees the camps.

Doug Profit, grower and an accountant for the Castro County agency, complained that FmHA

rules and regulations led to the abandonment of the camps.

"Nobody knows what they (the regulations) are," he said. "They change from day to day. We never got the same answer twice from the FmHA."

Gonzalez said that upon his return to Washington, he would meet with FmHA officials to expedite the application and find out why only half of FmHA's farm labor housing funds were currently being used.

Welcome Back Aggies!

We've reopened with lower prices and live Rock n' Roll.

All car audio systems are not created equal.

If you want the best car audio sound going, you want an Alpine. Our sales people and installers are Alpine specialists who know how to put together the best Alpine system for your car, your ear, and your budget.

\$219

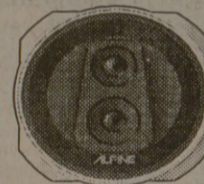

The Alpine 7124 FM/AM Cassette with Auto Reverse, Bi-level gives superior autosound performance in a small (4 1/2") chassis that will fit any car made. The 7124 houses a completely full-featured, regular-powered unit with SCC Tape Head, Bi-level Capability (for quick-connecting more power), and Cassette Glide.

\$219

The Alpine 3000, 18W x 4, 5-Band Graphic Equalizer is a compact, 4-channel Amp/5-Band Graphic Equalizer that gives you complete control of the audio spectrum. Has 72 Watts of power, plus specs and features that rival the best home audio equipment.

Free installation on any Alpine system this month.

\$119

The Alpine 6302, 6 1/2" 3-Way Speaker System provides the true test of your car audio system. With a separate woofer and tweeter, this compact speaker system will fit any American or foreign subcompact car on the road. And deliver the clean, full range sound of your Alpine system.

\$59

The Alpine 6202, 4" 2-Way Speaker System has the flexibility of a separate woofer and tweeter in a compact unit that fits foreign and American subcompact cars, yet still delivers big, full range, clean sound. Has a 1 1/2" Mounting Depth, Cone Tweeter, and Wire Mesh Grilles.
