Don't play dead around here

These 10 buzzards seem to be waiting in line for something. Maybe they are just passing time until their next meal, when something dies. They were found soaring and sitting around the Jersey Street Drive and FM 2818 intersection.

NTSU band to jazz up Texas A&M

The North Texas State University One O'Clock Jazz Lab Band, a known band composed of the best musicians in the NTSU jazz program, will play in Rudder Auditorium tonight at 8.

The 20-piece band has appeared at all major U.S. Jazz Festivals and was invited by the State Department to tour the U.S.S.R. as part of the United States bicentennial, said Bobby Knight, assistant to the coordinator of the NTSU jazz program and an alumnus of the band.

The 1975 album of the 1 O'Clock Jazz Lab Band, 'Lab '75,' marked the first time a collegiate band was nominated for a Grammy in the big band jazz category.

The band, directed by Neil Slater, is one of nine different labs in the jazz program, Knight said. Each band is named for the hour of its rehearsal.

Tickets are \$3.50 for students and \$4.50 for non-students and are available at the Rudder Box Office, 845-1234.

Chinese goodwill group to perform nation's music

By MARY JO RUMMEL
Battalion Staff
Glimpses of Chinese culture and arts will be presented by the South Goodwill Mission of the Republic of China in "An adventure in Chinese Songs and Dance" Monday at 7 p.m. in Rudder Auditorium.

The program will consist of martial arts demonstrations, traditional and folk songs, dances and selections of popular Chinese and American songs.

The eight female and six male members of the Mission are chosen from 104 universities and colleges in Taiwan. They come

from a variety of backgrounds and majors ranging from agriculture economics to education to dance.

The program consists of three groups which tour for two months in different sections of the country.

So far, this particular group has performed in Chicago, Washington, D. C., the University of North Carolina and Louisiana State University, Alan Lu, a member of the Texas A&M Chinese Student Association, said. The presentation is sponsored by the association.

This is the second performance

of the group at Texas A&M; the first was in 1974.

The group is led by Director Chih-Kang Wang, a former Texas A&M student, who received his doctorate in business administration in 1978. He is an associate professor at the National Taiwan University. Chiou-Yih Guo, also of the National Taiwan University, is deputy director.

Tickets for the performance are \$3 and are on sale at the Memorial Student Center box office.

FISHER STUDIO STANDARD AM-FM STEREO QUARTZ — LOCKED DIGITAL SYNTHESIZER RECEIVER

Fisher's 100-watt RS280 redefines "state-of-the-art" technology. The tuner section utilizes a quartz-locked digital synthesizer system activated by feather-touch control bars. The selected station is displayed by the fluorescent digital frequency readout. A preset memory allows you to instantly select any one of 10 preset stations... 5 AM and 5 PM. For extra control of the RS280's dynamic sound, a 5-band graphic equalizer has been built in permitting you to tailor the music to your own individual taste. Come see this amazing receiver... you'll be glad you did!

RS280

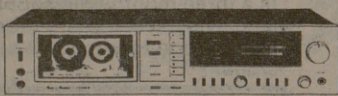

FISHER
