Night fall

Rudder Fountain is one of the many scenic night spots on campus. Surrounded by lighted walkways, the fountain hits its peak.

High schoolers focus on careers Saturday

By CATHY CAPPS
Battalion Reporter
High school and community college students will get a preview of Texas A&M University at Career Day '81 Saturday.

Students from Texas high schools and two-year colleges are invited to attend exhibits and displays showing the academic and career choices available at the university.

About 5,000 students are expected to attend Career Day '81, Director of School Relations Lloyd Taylor said.

Representatives and displays from 10 colleges will be set up in various buildings across campus from 9 a.m. to noon. Tours and presentations will be featured in various campus facilities, including The Battalion, the Cyclotron,

the Veterinary Medicine Complex and the nuclear reactor.

General career and academic information booths will be set up in the Langford Architecture Center. Information areas for Texas A&M University at Galveston, ROTC, and the Colleges of Architecture and Environmental Design, Education and Medicine also will be set up in Langford.

The Colleges of Liberal Arts and Business Administration will set up their displays in the Academic and Agency Building, and displays for the Colleges of Engineering and Agriculture will be in Zachry Engineering Center.

Other exhibit locations include the College of Sciences in Heldenfels Hall, College of Geosciences in the O&M Building and College of Veterinary Medicine in the

Veterinary Medicine Complex. Tickets for the Texas A&M-Southern Methodist University football game also are available to Career Day visitors for \$3 each and will be on sale at Rudder Tower and Zachry Engineering Center between 9 a.m. and noon.

Career Day, held every fall, is the main recruiting day for Texas A&M, Taylor said. Because of its success, the Office of School Relations would like to have a second Career Day in the spring.

Brass Quintet to play tonight

The Empire Brass Quintet, an all-brass ensemble, will bring their special form of symphonic music to Rudder Auditorium tonight at 8.

The quintet, which was the first ensemble to receive the Naumberg Chamber Music Award in Texas in 1976, is being brought to Texas A&M University by the MSC Opera and Performing Arts Committee.

Rolf Smedvig, trumpeter and founding member of the group, and David Ohanian, french horn player, also are members of the Boston Symphony Orchestra. Charles A. Lewis Jr., trumpet,

is a faculty member at the New England Conservatory and Boston University. Trombonist Donald Sanders is a member of the Boston Ballet Orchestra. Samuel Pilafian, a free-lance tuba player, completes the quintet.

Tonight's program includes a suite from "Porgy and Bess" by George Gershwin, "Aria" by George F. Handel and "Quintet for Brass Instruments" by Alvin Etler.

Tickets for the event are on sale at the Rudder Box Office. Prices are \$6.50, \$5.25 and \$4.25 for non-students and \$5.50, \$4.50 and \$3.50 for students.
