Freshmen lead tennis team to title, Joelson finishes 2nd

By RICK STOLLE
Battalion Staff
Led by three freshmen, the A&M tennis team dominated the third Texas A&M University three-way tournament. Kimmo Alkio, Mike Pazourek and Greg Hill, all freshmen, were the three Aggie players to reach the semifinals in singles. The semifinalist was Vaughn Kowal of Southwest Louisiana University. Alkio defeated Pazourek 6-1, 6-1 for the championship. "Kimmo is really playing well right now," said Pazourek. "He is unbeatable in this tournament." All three of our freshmen had a very great tournament," said Coach David Kent. "They are coming strong and we will need it going into the Westwood tournament." The Westwood Invitational tournament, held next weekend in Austin, is one of the biggest tournaments of the fall in Texas. This year, the University of Texas, UT, Trinity, TCU and A&M will be competing. All the teams were

ranked in the top twenty nationally last spring. "The Westwood tournament will be our biggest test of the fall," the coach said. "We will need everybody we have playing well." In doubles of the Three-way tournament, both Alkio and Pazourek reached the semifinals before getting rained out Sunday. Alkio was paired with Arnold Kettacker and Pazourek had Ron Kowal as his partner. "We were a little spotty in doubles," Kent said, "but we played well enough to get two teams into the semi's. We'll have to have a little more work on that before the Westwood." Alkio had a bye in the first round but defeated Marlis Smith from Rice in the second round 6-2, 6-2. He went on to beat Howard Price of Rice 6-3, 4-6, 6-1 and third seed Bryan of SWL 6-3, 6-1 to reach the finals. Pazourek beat Mark Miller of Rice 6-4, 6-3 in the second round, and teammates Ron Kowal 6-3, 7-5 and Greg Hill 4-6, 6-4, 6-3 before falling to Alkio. Hill beat Boyd Bryan of SWL

6-2, 6-4 and fourth-seed Tres Cushing of Tice 6-3, 3-6, 6-1 before he fell to Pazourek. "Greg and Ron had a great tournament and played well," he said. "Alkio was unbelievable." He said he did not think Alkio would even get past the first round since he was coming off a battle with the flu. "Early in the week, I wouldn't have bet on him at all," the coach said. "Now, I'm glad I didn't have to." Pazourek and Kowal were the top seeded doubles team in the tournament. They defeated Bryan-George Rodriguez of SWL 6-3, 3-6, 6-3 after a bye to reach the third round before the tournament was rained out. Alkio-Kettacker defeated Price-Spike Jopiti of SWL 6-2, 2-6, 7-5 as the rain started. "It was a real shame that the last portion of the doubles was rained out," said Kent. "We sure could have used the work." Brian Joelson missed the Third A&M Three-way because he was competing in a Nationals tournament in San Diego. Joelson was

defeated in the finals of the tournament by George Bezeeny of Florida, 6-1, 6-3. "Brian did an outstanding job in San Diego," said Kent. "He should really have his confidence back after doing so well out there." Kent said Joelson had not had a very good fall so far and really needed a good win. "He beat some of the best young tennis players in the coun-

try," said Kent, "and he should come back ready to tear everybody up on the courts. We can really use a confident Brian Joelson going into the biggest tournament of the fall." The tournament was a National tournament of Regional champions. The winners of the 16 regions in the nation went to San Diego to compete. Joelson defeated top seed Tom Leonard 6-4, 6-1 in the first round.

Women's soccer team rolls past competition

By FRANK L. CHRISTLIEB
Battalion Staff
The Texas A&M University women's soccer team defeated the University of Texas 3-2 Friday to win the regional title, qualifying the Aggies for the national tournament. The national competition, which the Aggies placed fifth in 1980, will be held Nov. 19-22 in Chapel Hill, N.C. After coming from behind to beat the Longhorns, the Aggies won four matches Saturday in the Austin Women's Invitational tournament, raising their season record to 11-0. Texas scored the first two goals in Friday's match, putting the Aggies behind 2-0 late in the first half. However, Texas A&M's Carol Smith scored with seven minutes left in the half to pull the Aggies within one goal. Texas A&M tied the score about 17 minutes into the second half, when Becky Carpenter scored, while the Aggies' Carol Gittinger called the winning goal with 12 minutes left in the match. Although the score indicates a close match, Texas A&M coach Jim Butts said his team dominated the game. The Aggies took 20 shots on goal, while limiting the Longhorns to only four.

Saturday's tournament, which was cut short because of rain, began with the Aggies defeating the Austin Hazzard soccer club 4-1. Carpenter, Smith, Gittinger and Jamie Fougerson scored for the Aggies, who once again fell behind early but easily won the game. The Aggies defeated the Houston Kickers 7-0 in their next match, limiting the Houston club to two shots on goal. Texas A&M received balanced scoring, as Sue Niles and Smith scored two goals apiece, while Gittinger, Carpenter and Fougerson each scored one. The Deer Park Rowdies fell 3-0 to the Aggies, as Gittinger, Carpenter and Laura Estes scored for Texas A&M. Texas A&M defeated UT again, holding the Longhorns without a shot in the Aggies' 3-0 win. Smith, Carpenter and Estes scored goals for Texas A&M before the game was called because of darkness.

Advanced R&D Careers

The atmosphere at Fairchild's Advanced Research and Development Laboratory in Palo Alto, California, is charged with new ideas, new developments and new expansions. The Advanced R&D Laboratory is the force that will push Fairchild into worldwide technical leadership. The opportunity for you to play an important role in that push is very real.

Nearly half of all our new technical staff will be MS and PhD graduates like you from major universities throughout the world.

On-Campus Interviews Nov. 24 & 25

Fairchild is committed to taking over the leadership position on the frontiers of electronics technology. As a member of our Advanced Research team, you can make it happen. Make an appointment to meet with Fairchild's R&D representative at your Career Planning and Placement Center. Or write to:

Fairchild Advanced Research Laboratory
4001 Miranda Avenue, Dept. A
Palo Alto, CA 94304

As an affirmative action employer, we encourage women, members of minority groups and the handicapped to apply.
