*Pablo Cruise has slick sound*

## Smooth sailing for group

By GARY BARKER  
Battalion Staff  
Despite a change in the location of the concert, Pablo Cruise, the San Francisco based pop/rock group, managed to impress a full Rudder Auditorium Friday night. The show, originally scheduled for G. Rollie White Coliseum, was transferred to the auditorium be-

cause of low ticket sales. The move caused some frustration for ticket holders because the move was not announced until the day of the concert.

However, Comedian Bob Dubac from Aspen, Colo. opened the show on a lighter note. At the beginning of his act, Dubac announced that he was Pablo Cruise and everyone had been "ripped off." The audience responded with the traditional Aggie hiss.

"What's the matter, are your faces leaking?" he asked.

"How many of you have seen me on TV?" Dubac asked the audience later in his act. Several dozen people raised their hands. "Well, you must all be on drugs, because I've never been on TV," he replied.

After 30 minutes of heckling, Dubac left the audience smiling

and ready for the smooth California sound of Pablo Cruise.

The band is on the road to promote its new album, "Reflectors," and to introduce its two new musicians: Angelo Rossi, guitar and vocals; and John Pierce, bass guitar and vocals. The other members of Pablo Cruise are original

and "A Place in the Sun," the band's anthem.

The band's most impressive songs contained lengthy piano solos by Cory Lerios, who demonstrated an energetic virtuosity on his white grand piano. Another of its best songs was "Zero to Sixty in Five," a lengthy instrumental which gave each band member a chance to demonstrate his musical proficiency.

While the band's musicianship remained consistently good throughout the performance, the band had one annoying tendency. On their records most Pablo Cruise songs are four to six minutes long. But in concert the band stretched almost every song to over 12 minutes by filling in with redundant guitar solos.

Despite this, Pablo Cruise presented an entertaining evening of soft-rock music. The concert was the band's second appearance in College Station and judging by the audience's response, they'll be back again — and probably to a larger crowd.

### Review

members: Cory Lerios, keyboards and vocals; Dave Jenkins, lead vocals and guitar; and Steve Price, drums.

From the beginning of their performance with the song "Worlds Away," there was no indication that any of the band members were new. The five musicians blended flawlessly both in their vocal harmonies and with their instruments.

Pablo Cruise effectively reproduced the crisp, layered sound of its popular songs including "Love Will Find a Way," "I Want You Tonight," "Cool Kind of Love"

## AGGIELAND FLOAT TO RELAX

FLOAT TO RELAX IS COMING!

Aggieland Float To Relax will present a FREE Grand Opening film and introductory discussion of salt-water flotation tanks. Floating brings a new era of relaxation for solving stress related problems and introducing super learning concepts.

EVERYONE WELCOME  
THURSDAY, NOVEMBER 19th  
Presentations at 7 & 8, and 9 p.m.  
HOLIDAY INN — SOUTH  
COLLEGE STATION

To South America, Europe, Africa, the Mideast and Orient, and scattered locations around the globe where the petroleum industry depends on Dowell Schlumberger's technical support.

We're an international corporation, providing vital wellsite services which include oilwell stimulation cementing and testing.

Dowell Schlumberger (Dow-well Schlum-bur-jay) needs top notch engineers interested in the exciting career options we have available.

Currently working in more than 50 countries outside of North America, you could be assigned anywhere from Australia to Zaire, performing wellsite operations in challenging environments.

For all this Dowell Schlumberger will reward you an exceptional starting salary, comprehensive employee benefits and an unprecedented opportunity to travel and live in foreign countries.

To find out more about our International opportunities contact your placement office for presentation and interview dates and let Dowell Schlumberger take you away to the top!

INTERVIEWING: Tuesday, November 24  
PRESENTATION: Monday, November 23  
TIME: 4-6 p.m.  
PLACE: Texas A & M

## Advanced R&D Careers

The atmosphere at Fairchild's Advanced Research and Development Laboratory in Palo Alto, California, is charged with new ideas, new developments and new expansions. The Advanced R&D Laboratory is the force that will push Fairchild into worldwide technical leadership. The opportunity for you to play an important role in that push is very real. Nearly half of all our new technical staff will be MS and PhD graduates like you from major universities throughout the world.

### On-Campus Interviews Nov. 24 & 25

Fairchild is committed to taking over the leadership position on the frontiers of electronics technology. As a member of our Advanced Research team, you can make it happen. Make an appointment to meet with Fairchild's R&D representative at your Career Planning and Placement Center. Or write to:

**Fairchild  
Advanced Research Laboratory**  
4001 Miranda Avenue, Dept. A  
Palo Alto, CA 94304

As an affirmative action employer, we encourage women, members of minority groups and the handicapped to apply.
