**SOCIETY OF PLASTICS ENGINEERS:** Meeting to discuss

## Toyota, GM discussing production

**United Press International**  
**TOKYO** — General Motors Corp. and Japan's Toyota Motor Co. have begun talks on the possible joint production of cars in the United States, Toyota spokesman said Monday.

The spokesman said Toyota, president of Toyota and Roger B. Smith, chairman of General Motors, met in New York March 1 to discuss the possibility of cooperation.

"The two companies have committed themselves to give further consideration in the possibility," he said.

"It is still too early for an additional announcement," the spokesman said.

Industry sources said plan calls for the annual production of some 500,000 small models developed by Toyota, now-idle GM factory.

The hailed the two giants' talks on a possible cooperation in making cars in the United States.

Shinjiro Nishinaka, director of the automobile division of Ministry of International Trade and Industry, said: "It is desirable that the Japanese and U.S. automakers team up in production."

Japan's economic daily Nihon Keizai Shimbun, said tie-up talks began in December when Seishi Kato, chairman of Toyota Motor Sales Co, a sister company of the Toyota Motor Co., called on Smith in Detroit and sounded out GM on a plan.

## Backers plan two-state ERA blitz

**United Press International**  
**WASHINGTON** — Supporters of the Equal Rights Amendment are making a final push to ratify the proposed constitutional amendment, saying even if they lose the ERA battle, the war for equal rights will persist.

The National Organization for Women and other groups are waging a big blitz for ERA in Illinois and Florida, two states they have targeted as among the most likely to ratify it.

Three more states need to approve the amendment to ratify it before the June 30 deadline. NOW's strategy is to get two states, and then use political pressure to force one last state to ratify the amendment.

Oklahoma and North Carolina are the major candidates for the conclusive tally.

"Every place is uphill," NOW President Eleanor Smeal said. Smeal is in Miami preparing to

join former First Lady Betty Ford for an ERA campaign swing.

NOW is waging a major radio and television campaign in Florida, has 200 full-time volunteers and hundreds more going door-to-door part-time and is putting personal pressure on state senators to get the three or four votes standing in the way of ratifica-

tion.

"Our polls show there is solid popular support — 2-to-1," Smeal said.

"Eventually they've got to face the political realities. They are

January 1977 — ERA's strongest backers see little chance.

Smeal said that barring unforeseen circumstances the force needs to get Illinois and Florida.

no longer denying we've got the popular support. But so far, they are still saying 'no.'"

If Florida and Illinois do not break the logjam — no state has ratified ERA since Indiana in

The other non-ratified states, where little chance is seen, are Virginia, Georgia, South Carolina, Louisiana, Mississippi, Utah, Nevada, Alabama, Missouri, Arkansas and Arizona.
