

School bus, trucks collide; student killed, 20 injured

United Press International
DOYLINE, La. — One student was killed and at least 20 people injured early Thursday in a collision of a school bus, a ravel truck and stalled pickup in a rural area of northwest Louisiana.

State Police Sgt. Perry Smith said the school bus was hit by the ravel truck just behind its front door. It was not known how the pickup was involved, he said.

Five ambulances were called

to the collision and at least eight people, including the bus driver, were taken by ambulance to Minden Medical Center. Others were transported to Bossier Medical Center, officials said, and some were transferred to hospitals in Shreveport.

"There was one dead on arrival at Bossier Medical Center," Smith said. "It was a student; we don't have the age."

The accident occurred just outside a gate at the Louisiana

Army Ammunition Plant at about 8 a.m. at the intersection of highways 163 and 164, about 20 miles east of Shreveport.

The bus was carrying students to Doyline High School and Union Elementary, school board spokeswoman Betty Wise said.

She identified the bus driver as Jarue Smith, 63. Both Smith and the unidentified truck driver were injured.

Draft agency to prosecute registration law violators

United Press International
WASHINGTON — About 880,000 men registered for the draft during the grace period that ended Feb. 28, leaving slightly more than 500,000 men in violation of the law, the Selective Service head said Thursday.

Thomas Turnage told a

House Armed Services subcommittee the current rate of compliance with the registration law is 93.6 percent and 7,792,000 men have registered.

But the Justice Department said it may be summer before

grand juries begin returning indictments against those who failed to register.

Under law, males born in 1960 and thereafter are required to register within 30 days of their 18th birthday.

Turnage said about 535,000 men have violated the law by not registering. He also said that 195,000 of these men were born in 1963 and that they form the largest group of violators.

Turnage said that, although

the Selective Service believes the most common reason for non-compliance "is lack of knowledge and awareness, there are, of course, some non-registrants who are well aware of their obligation."

He said his agency is preparing to go forward with prosecutions of men who failed to register and will begin matching registration lists with Social Security lists to find non-registrants. The agency also will request addresses of suspected non-registrants from the Internal Revenue Service.

Use of Social Security numbers is already under attack in the federal courts.
