Suit blasts labor pact of Braniff

United Press International  
DALLAS—The union representing Braniff International's maintenance and security personnel has filed a suit claiming the airline cancelled a contract with its workers in order to obtain employees from companies using non-union personnel.

The suit, filed Tuesday in U.S. District Court by the International Brotherhood of Teamsters, does not seek specific monetary damages, but asks Judge Patrick Higginbotham to reinstate the union's contract.

However, Braniff spokesman Sam Coats said that the suit is without merit and that the company will not comment further.

The Teamsters union has represented the security and maintenance workers since 1974, the suit says, and has a contract that runs through this year.

The suit claims that on March 1, Bekins Building Maintenance Co. began providing the maintenance and security personnel at corporate headquarters and at Braniff terminals in Houston and at Dallas-Fort Worth Regional Airport.

The union charges that Bekins hired few union employees and that it paid lower wages, eliminated some benefits and suspended the contract's grievance procedure.

Reviewing to be ready

Jeff Riblet, a senior chemistry major from Houston, and Brenda Rode, a sophomore physical therapy major from Austin, review the ambulance equipment outside the A.P. Beutel Health Center.

One-third of Mexican illegals now in Texas, studies show

United Press International  
AUSTIN — Nearly one-third of the nation's Mexican illegal aliens live in Texas, where one of every five Hispanic residents is a person who has no legal right to be in the United States, two University of Texas researchers say.

Preliminary studies show the average Mexican illegal alien is 23, married, poorly educated and was an agriculture worker in Mexico but does not necessarily pursue the same vocation in the United States.

the Governor's Task Force on Immigration. Bean and King said Tuesday that an average of 750,000 illegal Mexican workers were in Texas during the 1980 census. They also stressed the number would grow throughout the 1980s.

ciates polling firm, one that a representative said had not been completed by the time the panel was set up.

The report also concluded there were 2.1 to 2.5 million illegal aliens in the nation during 1980.

Newhouse said an alien who has only five years of high school education compared to the average of 11 years for legal residents.

The task force also received the first stage of a survey that hopes to identify the responses and characteristics of illegal immigrants in Texas.

Newhouse said preliminary statistics indicate illegal aliens are more likely to be than legal Mexican residents. He said 60 percent of the aliens reported bringing their spouse into the country.

Bush gives runner his 'best wishes'

United Press International  
SAN ANTONIO — Vice President George Bush sent "best wishes" to 25 college fraternity members who plan a 240-mile run to protest the Reagan administration's student financial aid cutbacks.

we care about college education," coordinator Joe said Tuesday. "We think the run will call attention to the need for financial aid for students."

But Bush does not plan to be at his Houston office Friday when the members of Kappa Sigma at St. Mary's University are scheduled to arrive.

The fraternity from Texas' largest college planned to run several miles each day at night in small towns along Highway 90. Relays were scheduled to begin Wednesday.
