## Suspects in judge's death to ask for reduced bonds

United Press International  
SAN ANTONIO — A U.S. magistrate has promised to hear requests early next week to reduce nearly \$3 million in bonds for three of five people indicted in the 1979 slaying of U.S. District Judge John H. Wood Jr.

An attorney representing Joe Chagra, charged with conspiracy to murder Wood, said at a hearing Friday his client could not post his \$1.6 million bond because the Internal Revenue Service already had begun confiscating his property in response to a separate tax evasion indictment handed down with the Wood indictment earlier this week.

Chagra, 35, and his sister-in-law, Elizabeth, 28, were transferred from El Paso to San Antonio Friday and appeared before a magistrate to hear the charges

against them. Jo Ann Harrelson, 41, charged with obstruction of hearing.

Mrs. Harrelson and Mrs. Chagra were being held in the Bexar County Jail, and Chagra was held at the federal penitentiary in nearby Bastrop.

U.S. Magistrate Robert O'Connor said he would hear requests early next week to reduce Chagra's \$1.6 million bond, Mrs. Chagra's \$1.1 million bond and Mrs. Harrelson's \$250,000 bond.

Chagra's older brother, Jimmy, and Mrs. Harrelson's husband, Charles, were charged with murder and conspiracy in the Wood killing. Jimmy Chagra, 37, is serving a 30-year federal prison sentence in Illinois for drug smuggling, and Harrelson, 43, is serving 40 years in a Texas prison for drug and weapons convictions.

The indictments — returned Thursday after a three-day \$4.7 million-plus investigation — charged that Jimmy Chagra hired Harrelson to kill Wood, who was known as "Maximum John" for his tough sentences in narcotics cases, rather than a trial in his court.

Joe and Elizabeth Chagra, accused of helping to plan a cover up of the killing, and Joe Jimmy also face drug charges, an alleged plan to sell marijuana and cocaine to finance Jimmy's escape from prison.

Houston attorney Don Ervin said Friday he visited with Harrelson for the first time since the indictments were returned. His client was "relieved."

"He's looking forward to having his opportunity in court. This thing has been going on three years," Ervin said.

## Agricultural crisis schemes confront Congress this week

United Press International  
WASHINGTON — Confronted by the greatest agricultural crisis in the Southwest in five decades, Congress will tangle this week with a bewildering array of quick-fix schemes to bolster the financially ailing farmer.

One plan sets up what some term a welfare state for farmers in which loan payments would be deferred or rescheduled by the Farmers Home Administration, the Agriculture Department's chief emergency lender.

Another plan opens up new lines of credit to farmers who cannot pay back old production-based loans or qualify for commercial funds.

Most of the remedies focus on changing the ways the FmHA does business.

"Too many government loans were made that were unjustifiable," Billy Bode, a south

Texas farm auctioneer, said. "The auction business has never had it so good."

Rep. Glenn English, D-Okla., said the FmHA may be a catalyst in bringing about an agricultural depression.

A recent UPI survey of farm leaders in the Southwest revealed as many as 70,000 of the region's 350,000 farmers may go under by next harvest season, and that regional farm income — adjusted for inflation — was the worst since the Dust Bowl era. The region leads the nation in the number of overdue loans farmers owed the government.

Lawmakers from the Southwest have taken the lead in the fight to save farmers from bankruptcy.

English recently drafted a land value protection act which would automatically halt foreclosures by the FmHA when the rate is more than 10 times the

average foreclosure rate of the past decade.

The plan, part of a larger package, may be reviewed this week by the House Agriculture Committee. The package could be applied only to family farmers who demonstrated good management practices and were considered a good bet to repay the funds.

The Reagan administration objected to the plan, saying its generous provisions would interfere with the discretionary authority of the Agriculture Department.

Moreover, the plan would "extend welfare rights into the farm community," warned Rep. Thomas Coleman, R-Mo., a member of the subcommittee on agricultural conservation, credit and development, which approved the plan.

Meanwhile, Reps. Charles Stenhold and Ken Hance, both

Democrats from Texas, backed Reagan's economic policies last year, announced they were joining a coalition Democrats — dubbed the "crisis group" — and would write current farm law.

Sen. David Boren, D-Okla., promoted a similar package group and demanded a halt to farm foreclosures held by FmHA, which controls an estimated \$23 billion in outstanding farm debts.

This week, a Senate agriculture subcommittee will hear administration's response. Submitted by Sen. Paula Hawkins, R-Fla., the administration-backed plan would increase operating loans issued by FmHA, but kill the agency's controversial economic emergency program. It also would limit a limited resource program's provision that forces government to loan low-income money to disadvantaged farmers.

### Elective Courses in Recreation & Parks for Fall Semester 1982

NO PREREQUISITES

RP 101 (1-0) Introduction to Recreation & Parks: Sec. 501 M 12:00  
Sec. 502 W 12:00

A broad treatment of the recreation movement and the role of parks, leisure and recreation in modern society.

RP 201B (3-0) Foundations of Recreation and Parks: MWF 10:00

This course is designed for non-RP majors and deals with the development of recreation and leisure. Their theoretical foundations, philosophy, sociological impact, and prospects for their role in future American society.

RP 301 (3-0) Outdoor Recreation T.Th. 9:30

A study of the development and administration of recreation facilities and programs in essentially natural environments. Emphasis will be on land and water recreational opportunities in which environmental features are a dominant characteristic.

RP 311 (3-0) Community Recreation Program MWF 12:00

Fundamental concepts, characteristics, current trends and factors influencing the provision of organized recreation and leisure programs. Aspects of development, planning, operations, and administration of community recreation programs.

RP 340 (3-0) Recreation for Special Populations MWF 9:00

Provision of recreation services for special groups: the handicapped, the elderly, economically and culturally deprived, the gifted, and youth groups. Emphasis is on development, programming, provision and management.

RP 423 (3-0) Tourist and Resort Development MWF 10:00

Tourism and recreational travel; the nature of resort development and management. Historical and social background of the tourism industry in the U.S. and its relationship with resource characteristics. Problem of ownership and control of state, national, and international resort industries.

RP 460 (3-0) Development of Recreation Resources T.Th. 8:00

Basic problem of development of recreation resources and of the planning process on the municipal, state, and national levels. Planning philosophy, information sources, regional influences, political realities, and behavioral survey methods.

RNR 375 (3-0) Conservation of Natural Resources Sec. 501, T.Th. 8:00  
Sec. 502, T.Th. 2:00

Principals — philosophies associated with the development, management and use of natural resources. Ecological implications inherent in management alternatives involving the natural environment and use of renewable natural resources.

The above courses in Recreation and Parks may be used as electives in a variety of programs. Check with your departmental advisor for further details.

For more specific information on any of these courses please contact the Department of Recreation and Parks, Francis Hall. Phone — 845-5411.

The history of humans oppressing other humans is long and depressing. The Holocaust, a story in itself of horrible dimensions, has become a symbol of the awfulness of all human oppression. On Tuesday, April 20, a day nationally designated as Holocaust Remembrance Day, we plan to encourage a responsible address to the future that still lies before us through a sorrowful remembrance of what lies in the background of our human history. We invite all who are interested in such a concern to join us.
