Judge won't move Chagra hearings

United Press International  
SAN ANTONIO — A federal judge ruled hearings on reducing nearly \$3 million in bonds for Joe and Elizabeth Chagra must be held in the U.S. magistrate's court in San Antonio, and refused to transfer the proceedings to El Paso.

The two are charged with conspiracy to assassinate U.S. District Judge John Wood.

Joe Chagra, 35, is being held in a federal prison near San Antonio on \$1.6 million bond on charges of conspiracy, obstruction of justice, drug and tax evasion.

Elizabeth Chagra, 28, is being held in the Bexar County jail on \$1.1 million bond on the same charges.

Alcoholism hurts productivity

United Press International  
RYE, N.Y. — Alcoholism among top executives forms a major barrier to increased pro-

ductivity in America's business and industry, says Dr. Paul A. Sherman, an authority on alcoholism.

Sherman is president and owner of a consulting firm that specializes in occupational and executive alcoholism programs.

Rh factor can be cut by globulin

United Press International  
WASHINGTON, D.C. — Prevention of Rh disease by injection of Rh immune globulin during pregnancy is a cost-effective method of dealing with the Rh factor, says a California research team that has studied nearly 4,000 mothers with Rh negative blood.

Their study, published in the April issue of "Obstetrics and Gynecology," concluded that Rh disease could be all but eliminated through the use of Rh-o (anti-D) immune globulin at the 28th week of pregnancy and immediately after delivery.

Drs. On W. Lim, Arthur A. Fleischer II and Harry K. Zeil based their study on more than 4,000 women who delivered children between 1976 and 1978 in the Los Angeles area Kaiser Plan hospitals. They found that giving Rh immune globulin after delivery to Rh negative women prevented nearly 94 percent of all expected Rh sensitizations.

Rh disease affects about one out of every 20 mothers.
