Begin's
wife is
treated

United Press International
JERUSALEM — Aliza Begin, wife of Israeli Prime Minister Menachem Begin, remained in 'serious but stable' condition Wednesday at Hadassah hospital where she is being treated for asthma and circulatory problems, a newspaper report said.

Mrs. Begin, 62, who was admitted to the hospital Sept. 27, has not been fully conscious since Tuesday night, Yedioth Ahronoth newspaper said.

The prime minister, 69, visited his wife of 43 years Tuesday night immediately after discussing the situation in Lebanon with U.S. envoy Morris Draper.

Members of her family take turns watching at her bedside, hospital sources said. She was moved into the hospital's intensive respiratory care unit Sunday after taking a turn for the worse.

Yedioth Ahronoth said that Mrs. Begin is in 'serious but stable' condition, and is breathing with the aide of a respirator. Mrs. Begin has periodically suffered from asthma and circulatory problems.

Head frog croaks

United Press International
JOHANNESBURG, South Africa — Beautiful Biesiepol, the burly bullfrog captain which represented South Africa's jumping team in competition around the world, has died, his owner said.

"He usually reappears in Sep-

tember or when the first rains come, but he was late and all I found was skin and bones," said Piem Fourie, the owner of the famous amphibian.

Biesiepol, who weighed in at 6 pounds during his prime, died at the age of 9 while in hibernation under a compost heap,

Fourie said.

"We won't find another him. When I told my grandchildren they said, 'Oh, no (grandfather), it can't be!'"

Biesiepol acted as captain for a three-frog African team in the States two years ago and voted "Biggest Frog" at several domestic championships.

"He must have made front pages 50 times at Fourie said. "He never but we used to parade around at the start of championships. He was so handsome."

Fourie urgently needs placement now for the West Jumping Olympiad weekend.

"But with this drought a farmer looking for rain said.
