famed whooping cranes have begun to return to the Texas Gulf Coast this year, but they are minus one of their most historic

Frank Johnson, the coastal reserve's manager said: "We flew this morning and we found we have 14 whooping cranes here already — 13 adults and one chick. They'll be coming on in until late November.

But Nyarling, the whooping crane who made naturalist his-tory when she was tracked last year using sophisticated radio beams across the 2,600-mile migration route, will not be pre-sent among the migrating cranes this year.

show any obvious wounds.

"We sent 73 (cranes) north last spring," Johnson said. "We have reports there's probably five chicks. So if we get all the older birds back, which is not always the case, we could have 78."

Scientists do not know why the endangered whooping cranes migrate to exactly the same spots each year. They al-ways spend the summer nesting at the million-acre Wood Buffa-lo National Park in Alberta, Canada, and then make leisurely stops in Nebraska, Kansas and Óklahoma before settling into the tall marshes of Aransas Bay, about 50 miles north of Corpus

bas more experience in the County Court at Law in both criminal and civil cases.

### He's best qualified to be Judge of that court.

 In a recent poll, a majority of active Brazos County lawyers affirmed Steve Smith as "best qualified" to be Judge of the County Court at Law.

• The record speaks for itself. Steve Smith has a much broader background in the law, considerably more experience in both criminal and civil cases in the County Court at Law, more seasoning in contested matters and a record of public service to the community.

• The Judge of the County Court at Law is not an extension of the prosecutor's office. It is a place for the citizens as a whole and as individuals to find justice. The person who sits as Judge needs to be well versed, fair and experienced. Steve Smith is best qualified to hold this important office. We ask for your vote
