**New tax form may be easier**

United Press International WASHINGTON — The Internal Revenue Service's new tax form, the 1040EZ, is titled, styled and aimed at making it easier for 22 million Americans to pay their 1982 income tax.

The form is for single taxpayers with one personal exemption, no dependents, and income coming only from wages, salaries, tips and up to \$400 in interest.

IRS Commissioner Roscoe Egger Jr. said Tuesday the form can be filled out in three-fourths the time it takes to prepare a 1040A short form and will save the agency \$500,000 annually in processing costs.

"One out of five American taxpayers will be eligible to use the 1040EZ," Egger told a conference.

Egger said the 1040EZ also has been simplified, readability brought down to eighth-grade level and a step approach to the filing process.

Some 60 million taxpayers use the regular long 1040. Of the 36.7 million filers used the 1040A in 1980, 23.6 million were single.

The commissioner sample using the new form will be used to estimate the number of filers who will use the 1040EZ.

"Based on filing patterns one out of five who might use the 1040EZ would have the same result if they filed 1040A," he said.
