Several days after that meeting, however, Washington was quoted as saying: "I'm not supposed to say any-

there," he was told.

In a statement released to the press through Ralph Hanes, associate athletic director in charge of the keeping the press away from Jockie, Shorts said: "Mr. Washington just didn't fit into our plans to become a first-class athletic institution. We are proud to say that we once fired him, and we wish him the best of luck in trying to find another job before his

Attempts to contact Shorts in his office, at his home, in his car, at Kyle Field and in Regents Chairman B.S. 'Ultra" Brite's private aircraft were unsuccessful. However, his secretary told the Rag that Shorts did have a 15-minute time slot open in 1985, and that he would be available for comment at that time.

The Rag has learned that Washington's job was in danger the games. It was just a matter of time until Washington was axed."

The bike bill, which was passed unanimously, will set up two-way bike lanes throughout campus and make bicycle registration mandatory for bike riders. Students not registering their bikes with the University Police are subject to immediate expulsion.

The bill also sets up campus-wide stop lights with BIKE and DON'T BIKE signals for bicyclists in addition to the usual signal lights.

The oil bill was voted down by a slight majority as senators debated furiously over whether Glashow Hall would be allowed to lease the mineral rights to its courtyard to a private oil

"I really don't see what the problem is. If we don't mind the noise and mess, why should anyone else care? If you don't have an oil well, get one.

Senator Biff Cransdell said that allowing Glashow Hall to establish its own oil exploration would be unfair to other dorms. I think equal distribution of

wealth is an important issue in this situation," he said. "Dorms that don't happen to be sitting on huge reserves of oil won't be able to compete. As a senate representing the entire student body, we must be fair to all stu-dents equally." Although Student Body President

Tap Noserap said he personally believes some students are more equal than others, he said he publicly agrees with Cransdell.

We of the Student Senate just can't discriminate like Glashow wants us to do," Noserap said. "It's a ques-

tion of integrity."

The apathy bill was sent back to committee after no one really cared enough to vote on it.
