George Schultz blasts PLO

United Press International
WASHINGTON — Secretary of State George Shultz says the needs of the Palestinian people would be better served by stripping the Palestine Liberation Organization of its responsibility to represent them.

In a news conference Tuesday, Shultz blamed the setback in Middle East peace talks on the PLO and urged the Arab world to reconsider its 1974 decision to make the PLO the sole representative of the Palestinian people.

The PLO, Shultz said, has been the party that has temporarily frustrated an opportunity for peace.

He said if the PLO decides to

turn toward violence that it would be a bad decision.

He said such violence would be the alternative to a negotiated settlement involving Israel, Jordan and the Palestinians.

Referring to the decision of the PLO not to exercise its responsibility to enter the negotiations through Hussein, Shultz said, "We have a saying around here: 'Use it or lose it.'"

Palace sources said King Hussein has told President Reagan he can no longer take part in Middle East peace efforts until either the PLO fully approves the Reagan peace plan or the Arab League decertifies the PLO as the sole representative

of the Palestinian people.

The United States is standing by its proposal for a negotiated settlement that would lead to a Palestinian entity federated with Jordan on the West Bank and Gaza, Shultz said.

"We emphasize for it be successful it has to meet the legiti-

mate needs of the Palestinian people. That is good high ground to stand on," he said.

Shultz said he stands ready to travel to the Middle East if Reagan orders him to go, but no trips or conferences are planned at present because they would not have any apparent benefit.

Cisneros projects changes

United Press International
DALLAS — The mayor of San Antonio said Texans must dispel the Texas myth of a perennial growth economy and prepare for a wave of technological changes.

Mayor Henry Cisneros said Tuesday the state must revamp education system to prevent a gap between the "technological-literate and technologically illiterate."

He said San Antonio, the nation's 10th largest city, is the only in America best prepared to make its way in the 21st Century because of its diversified economy.
