If you have an item for "What's Up," you can fill out a notice in 216 Reed McDonald at least two days in advance of the activity. No items are accepted by phone.

Message taped by murderer

United Press International
NEW YORK — A week before he was electrocuted in a rural Alabama prison, John Louis Evans III, 33, videotaped a remorseful message condemning the murder he died for.

"God knows right now I've even reached the point where, you know, if it were possible to give up my life to give his back, I wouldn't hesitate a second to do so," Evans said in a tape aired Wednesday on CBS.

The drifter from Beaumont was executed Friday at Holman Prison for the 1977 slaying of Mobile, Ala., pawnbroker Edward Nassar during a holdup.

The videotape made by prison chaplain Martin Weber, a Mennonite, was recorded in Holman April 17, five days before Evans was electrocuted. Weber said Evans had a burning desire to try and point young people away from the criminal life he led.

Three 30-second surges of electricity were administered before Evans' heart was still and prison doctors pronounced him dead.

Father Kevin Duignan, who became Evans' spiritual confidant during his six-year stay on death row, said the condemned man wanted the tape to be used as an educational weapon against crime.

"My name is John Evans and I'm on death row in Alabama and I'm scheduled to be executed in about four days.

"I felt there are some important things that I should say and if you're smart you're going to

listen and you're going to learn a little something," Evans said in the tape.

Weber and an Alabama Prison Commissioner were interviewed by CBS' Diane Sawyer in the segment aired on the network's morning news show.

Evans feared if the message was made public before the execution people would conclude he was using the appeal to his personal advantage, so he demanded it remain confidential until he was dead, Weber said.

The chaplain quoted Evans as saying, "After I'm dead and gone you may release it.

"I'm here for committing murder, for killing a man. I can't give back the wife her husband. I can't give back the kids their father. You know, taking the life of another human being is just almost too horrible, you know, to think about.

"I guess I've relived it over in my head 100 times and a lot of times, you know, course I'm overcome with a sense of remorse, you know, for him and his family."

Weber said the recording would be shown to adolescents, specifically in the 12 to 15 age group, because as Evans looked back in his life, that's where it all began.

"It got to the place he just couldn't live with himself anymore," Weber said. "He just said he just had to cry out to God for mercy and ask God to forgive him. He made a commitment to Jesus Christ and that's where he found the answer."

THE STORE WORTH LOOKING FOR!

PIONEER RECEIVERS

SX-5
Continuous average power output is 30 watts per channel min. at 8 ohms from 20-20,000 Hz with no more than 0.02% total harmonic distortion. Non-switching circuitry; DC power amplifier; six AM and six FM preset stations, station scan, and digital frequency display; Electronic (touch) function and tuning selection.
Reg. \$325.00
Now \$189⁹⁵

SX-6
Computer controlled FM/AM digital/quartz synthesizer stereo receiver with station presets and non-switching 0.6 DC power AMP. Continuous average power output is 45 watts* per channel, min. at 8 ohms from 20 hertz to 20,000 hertz with no more than 0.009% total harmonic distortion.
Reg. \$425.00
Now \$279⁹⁵

SX-8
100 watts continuous average power per channel minimum at 8 ohms from 20-20,000 Hz with no more than 0.009% total harmonic distortion; totally computer controlled non switching circuitry; DC power amplifier and digital display of frequency, volume, tone, and time.
Reg. \$800.00
Now \$549⁹⁵

PL-4 Auto-return direct drive turntable with statically balanced low mass Polymer Graphite™ straight pipe tone arm.
Now \$99⁹⁵

PL-5 Fully automatic direct drive turntable with 0.014% wow & flutter.
Only \$129⁹⁵

PL-44F Front-loading fully automatic turntable with moving-coil type cartridge.
Now Only \$199⁹⁵

KEX-20 AM/FM stereo cassette deck with electronic tuning system; Dolby; separate bass/treble controls; preset 5 AM, 10 FM stations; LED band indicators. Reg. \$300.00
Now Only \$229⁹⁵

KP-8500 This in-dash cassette deck has a Dolby™ noise reduction system for both tape and FM modes. Supertuner AM/FM circuitry. A stereo/mono switch. Local/distance switch. Volume, tone and balance controls. Automatic muting on FM stereo. Locking fast forward and rewind. And automatic eject.
Now Only \$179⁹⁵

KP-1500 New from Pioneer... in dash cassette deck with AM/FM stereo, locking fast forward, FM muting, volume, tone & balance controls and power antenna activator.
Now \$99⁹⁵
