

Intramural schedule announced for fall

by Scott Griffin

Battalion Staff
For students who want to have some fun or to test their competitive skills, Texas A&M offers one of the finest intramural

programs in the country. For 1983-84, the University will include more than 50 sports in its intramural program and tournaments will be organized by the Intramural-Recreational Sports Department. Entry

forms and information are available in the intramural office in 159 East Kyle. Sports will be categorized into individual, dual and team competition. **TEAM SPORTS:** Individuals wishing to compete

are encouraged to organize their own teams. Students living on campus should contact their dormitory intramural chairman to see about playing on the dorm team. Others may be able to get people together within their apartment complex, department, fraternity, sorority or club to compete.

INDIVIDUAL AND DUAL SPORTS: Anyone submitting an entry form prior to the deadline is scheduled according to division and class selected. Participants may be required to supply their own equipment and, for some sports, a new, unopened can of balls. There is no entry fee.

TOURNAMENT SCHEDULES: Schedules for team and individual/dual tournaments are posted on bulletin boards in East Kyle on Thursdays after entries close. Playoff schedules are posted as rounds are completed.

AWARDS: In each sport, winners of the All-University Tournament in Class A receive championship T-shirts. Class B champions are given certificates.

LIABILITY FOR INJURIES: Since participation in the intramural program is voluntary, neither Texas A&M nor the Intramural-Recreational Sports Department can assume responsibility for injuries incurred by participants. The intramural department strongly recommends that individuals have a physical examination and secure adequate medical insurance before participation.

EMPLOYMENT: The intramural department often hires dependable students to work as officials, building attendants, lifeguards, photographers and office workers. Sports officials are the most needed because they are crucial to the success of the intramural sports program. Training clinics are provided, so experience is not necessary. Those interested should contact Tom Weis, assistant director for personnel.

TENTATIVE SCHEDULE FOR INTRAMURALS, 1983-84

- Fall semester:**

Culpepper Plaza

Campus tellers planned

by Pam Barnes
 Battalion Reporter
 You're out for a pizza and discover the parlor doesn't take

checks. The easy way out is to get cash from your bank's teller machine. And now that service will be available on the Texas A&M campus.

Construction on two MPACT machines has begun. The units will be installed at the College Station campus. The units will be 24-hour walk-up machines. The fall, only eight machines are still in the process. Rest assured, inquiries.
