# Rockets spill; residents evacuated

United Press International  
SHAMROCK — A segment of Interstate 40 was closed for several hours Tuesday and residents of four houses temporarily evacuated because a truck carrying 1,746 small rockets overturned, officials said.

A six-man military team from El Paso's Fort Bliss reported no damage to 72 rockets that spilled when the truck hit a cow and overturned around 3:30 a.m. about 1.5 miles west of Shamrock, near Oklahoma.

Fort Bliss spokeswoman Mariann Rittner said the military team opened boxes containing the spilled rockets, but found no damage. A weapons expert from Fort Sill in Lawton,

Okl., also was dispatched to the site, officials said.

The rockets, which are 2.75 inches in diameter and 4 feet long, did not contain warheads, Rittner said. They are used on helicopters and war planes.

A private trucking firm was transporting the rockets from the army's Pine Bluff Arsenal in Pine Bluff, Ark., to the Holoman Air Force Base in Alamogordo, N.M., Rittner said.

Larry Todd, Austin spokesman for the Texas Department of Public Safety, said no one was injured when the truck overturned on its side on I-40 in Wheeler County.

There was no fire, but the area was sealed off just in case.

Residents of four houses in the area were asked to leave their homes for several hours.

Traffic was rerouted until mid afternoon while the area

was inspected and cleared. Todd said a private truck from Amarillo continued hauling the rockets.

Officials said they did not

know whether 51 mph winds at the time contributed to the accident. The winds swept the Panhandle as a cold front arrived.

## DO YOUR MOST COMFORTABLE PAIR OF SHOES LOOK THIS GOOD?

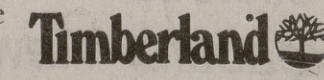

\$54<sup>95</sup>

Probably not. Because once you get most shoes to the point where they feel great, they usually don't look too good.

You won't have that problem with Timberland shoes. Timberland's unique handsewn construction allows the shoe to conform to your foot instead of vice versa.

In addition, Timberlands are made with the finest full-grain leathers. Sturdy nylon thread because it holds up better. Only solid brass eyelets. And long-lasting, rugged Vibram® soles.

The result? A handsewn so comfortable, the breaking-in period ends the day you put them on.
