

State Fair to open today

United Press International
DALLAS — The song stylings of the legendary Lena Horne are among the highlights of the 1983 edition of the State Fair of Texas, which opens today for a 17-day run expected to attract 3 million visitors.

The 52-foot-tall Big Tex will again greet visitors to the fair billed this year as the "best of shows." A traditional football clash and a special visit by a

European government leader will be special attractions.

A sellout crowd of 75,587 is expected to witness the 78th meeting of second-ranked Texas and seventh-ranked Oklahoma Saturday at the Cotton Bowl.

The president of West Germany, Karl Carstens, will attend German Day ceremonies at the fair Sunday. It will be his only public appearance during a

weekend visit to Dallas.

"Lena Horne: The Lady and her Music," opened Tuesday night at the Music Hall. It will run for 18 performances through Oct. 23. Tickets are priced from \$10 to \$25 and will be available in advance at the State Fair box office or in the lobby of the Music Hall on the day of the show.

A geodesic dome, 42 feet in diameter, will be one of the large

displays among the 300 exhibits at the fair. Other exhibits this year include an Air Force F-16 Fighting Falcon and a truck-driving school for 18 wheelers.

"The Great Rock and Roll Time Machine," a show highlighting rock music in the last 25 years, will feature slides, animation, and special effects with a soundtrack of 215 songs.

Service planned for UPI editor

United Press International
ALBUQUERQUE, N.M. — Funeral arrangements were planned for Jesse C. Bogue, who rose from copy boy to assistant managing editor in his 42 years with United Press International.

His son, Stewart Bogue, Hoffman Estates, Ill., said Bogue took a nap Wednesday afternoon. "My mother tried to wake him up for supper and he was dead."

Bogue, 71, had learned five weeks ago he had lung cancer, and was undergoing radiation therapy.

Bogue retired in 1977 as Midwest general news editor. Looking back on his career he commented then, "It hasn't always been fun. It has never, never, never been dull."

"Jesse was one of the great Chicago journalists who made this company so much better," said H.L. Stevenson, UPI executive vice president—editorial. "He was compassionate, warm and very low-key."

"Jesse was sort of the mastermind," said Everett R. Irwin, retired UPI night manager in Chicago. "He was known for his ability to write good light and bright stories. He was a darn good editor."

Said Don Rose, a well-known Chicago political activist and Bogue's son-in-law, "His legend as a newsman may have overshadowed his role as a father and a great human being."

Rose said funeral arrangements were pending.

Bogue is survived by his wife; one son, Stewart, Hoffman Estates, Ill., and one daughter, Nancy Bogue Rose.

New projects authorized

United Press International
WASHINGTON — Five Texas projects, including one to improve navigation in Freeport Harbor, passed the House Thursday in a bill authorizing \$19 million for 43 new projects about 30,900 Texas nationwide.

The bill authorizes the Army Corps of Engineers to begin construction on the Theeport Harbor, Clear Creek, Bigy Creek, Lake Wichita and Red River Chloride Control projects, but leaves the exact amount of spending to later congressional consideration of a state and federal cost-sharing formula.

The Freeport Harbor projects calls for relocation of the north jetty of the entrance chan-

nel in the Gulf of Mexico to improve safe navigation by deep-draft traffic.

The Red River Chloride Project funds will be used to begin construction of one site 12 miles southeast of Paducah on the

The project is designed to control chloride pollution in the Red River Basin.

north fork of the Wichita River and another about 20 miles southeast of Paducah on the middle fork of the Wichita.

The project is designed to control chloride pollution in the

Red River Basin. The plan of improvement consists of two low-head brine collection dams, brine storage reservoirs, two pumping plants, and the necessary pipelines and one brine storage reservoir.

The Clear Creek flood control project lies about midway between Houston and Galveston-Texas City and calls for enlargement and rectification of about 22 miles of Clear Creek Channel. The Lake Wichita project includes replacement of the existing Lake Wichita Dam with a 16,000-foot-long earthen dam, a concrete spillway, low-flow outlets work and a 9.3-mile long channel from the new spillway to the Wichita River along Holliday Lake.

BOSS BIRD TAKES A VOW.

"Ah do solemnly swear that you, ah say you, will be dee-lighted with Tinsley's Chicken 'n Rolls. You have mah word on it."
BOSS BIRD

Plump, flavorful chicken cooked up light 'n crispy in the natural goodness of pure vegetable oil. Fresh rolls baked from scratch (we were the first). Lots of real country honey—not those piddly little packets of artificial stuff. Honest-to-gosh brewed tea, iced to a refreshing chill. Plus extras like cole slaw, potato salad, big french fries, and jalapeño peppers. That's the terrific kind of meal you'll find at Tinsley's Chicken 'n Rolls. Ask anybody if it isn't so. Ask Boss Bird.
