Album reviews

Peter Baumann
Strangers in the Night
CBS
★★★

This is a perfect example of an average album. Peter Baumann of Tangerine Dream has some good ideas and some better than average sounds, but his poor songwriting ruins any big plans he might have had for *Strangers in the Night*, his second American release.

Pop musicians have been criticized over the years for thousands of reasons, but the main one has been the banality of the lyrics they commit to vinyl. Baumann uses smart instrumentations, yet his lyrics are the same old cliches, put into two verses and a repeat chorus.

- ★★★★..... Exceptional
- ★★★★..... Very good
- ★★★..... Average
- ★★..... Poor
- ★..... Trash

Daniel J. Travanti, Jobeth Williams. A missing child's distraught mother and father take steps to ensure the passage of legislation to help other parents of children who vanished. □

20 **★★★** "Two For The Road" (1967) Audrey Hepburn, Albert Finney. A young married couple decide to stay together despite their ups and downs.
39 **★★★½** "Oklahoma!" (1955) Gordon MacRae, Shirley Jones. A young cowboy and his girl realize they are in love at a dance.

12:00 39 **★★½** "The Big Game" (1972) Stephen Boyd, France Nuyen. Foreign governments attempt to obtain a powerful mind-

control device from American scientists.

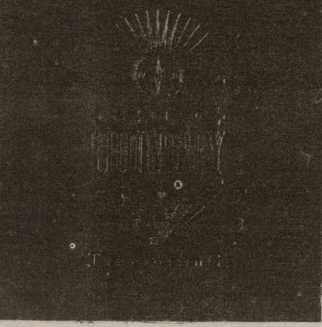

The title song is — yes, you guessed it — the Frank Sinatra classic, retold by Baumann's synthesizer-based lines. The vocals, by Eli Holland, chant nearly a monotone throughout the verse and finally break into melody for the chorus. The song holds together because of a strong, rhythmic drum program that counterpoints the subtle vocalizations. Amazingly, this version works and has begun to break onto some dance floors.

Several other decent songs show up on the album, but once again, they rest almost entirely on their melody and overall sound. Once you listen to the lyrics a few times, it's obvious that they have very little to say. If Baumann could hook up with a songwriter with imagination and perk up the energy in his own sound, he would be as impressive as any of the new music artists that are in competition with him. Until then, forget it.

1:00 20 **★★★** "The Spoilers" (1942) John Wayne, Marlene Dietrich. An outlaw dies while trying to steal gold from miners.

1:35 13 **★★** "Perilous Voyage" (1969) Michael Parks, William Shatner. A revolutionary leader begins his coup by hijacking a boat and holding the passengers hostage.

2:00 39 **★½** "Clancy Street Boys" (1943) Leo Gorcey, Huntz Hall. In order to get relief assistance, the Kids pretend that they are the children of a poor couple.

Big Country
The Crossing
PolyGram
★★★★

I have a feeling that this is an album music fans will be "discovering" for years to come just because it won't get a lot of attention right now.

Big Country has a sound that integrates some of the roots of British synth-pop with strong and innovative songs that are moody, serious, yet melodic. Because they choose not to keep a strict rhyme scheme, the lyrics are able to remain serious and still cover a wide range of ideas. Many of the songs seem to have some historical basis, but it is always just an impression, not a pin-pointed event. For example,

3:45 13 **★★★** "Young Dr. Kildare" (1938) Lew Ayres, Alma Kruger. After becoming a doctor, a young man decides to head for a metropolitan hospital.

one of the verses from "In a Big Country:"

*I never took the smile away
From anybody's face
And that's a desperate way to look
For someone who is still a child*

The lyrics are often vague like this, but it strengthens them to an extent, making the listener search for his own explanation of the song.

The album's sound is a mix between U2's traditional Scottish stance and Roxy Music's refinement and — surprise, surprise — is very danceable on many tracks. The element that sets Big Country apart from the current British pack is its energy along with the smattering of ideas that they get across.

Overall this has to be one of the most original albums, both in style and content, that I have listened to all year. The sound is new, and yet has a familiar quality that makes listening to it a warm experience.
