

# INTERVIEW WITH THE LEADER IN OFFICE AUTOMATION.

## WANG

### RESEARCH & DEVELOPMENT

At Wang, our R&D group is actively involved with the design and development of integrated information processing systems which span the six key technologies. Technologies which together form the essence of Office Automation.

- DATA PROCESSING
- IMAGE PROCESSING
- NETWORKING/ COMMUNICATIONS
- WORD PROCESSING
- AUDIO PROCESSING
- HUMAN FACTORS

Our commitment to R&D is backed by an investment of more than 100 million dollars for 1983 and to support that investment our college recruiting effort is specifically targeted to candidates who share our commitment to R&D. Challenging entry level opportunities exist at our Lowell, Massachusetts R&D Center in the following areas:

### SOFTWARE DEVELOPMENT

- Operating Systems
- Graphics
- Databases
- Data Communications
- Languages & Tools
- Firmware

If you're interested in applying your expertise to the development of new office automation products, and are a candidate for either a BS or advanced degree in Computer Science or Electrical Engineering, we invite you to interview with us while we are on campus at Texas A&M

Date: Thursday, February 2, 1984

Contact your Placement Office, or write to Geoff Jones, Wang Laboratories, Inc., M/S 1402A, One Industrial Avenue, Lowell, MA 01851.

We are an affirmative action employer.
