## Schulman Six 775-2468

**Reckless:** A film that is nothing more than a cheap rip-off of the movie *Breathless*. If Richard Gere couldn't draw a crowd into see him, how are two newcomers going to do any better? See at your own risk. R.

**Risky Business:** Tom Cruise stars in this story of the model teenage son, Joel. Joel learns the power he has when his parents go out of town, and in the process of all of the misadventure he somehow gets himself into Princeton. R.

**Surf II:** Another teenage party film. As usual this film has a very bad plot and very little acting in it. The only thing that saves this film is that it doesn't try to take itself too seriously. Another film to watch at your own risk. R.

**The Big Chill:** This film truly has the stars of the 80s in it. The plot revolves around college chums of the sixties getting together for a reunion and wondering what happened to the good old days. A wonderful film. R.

**Uncommon Valor:** A father (Gene Hackman) cannot accept the fact that his son is listed as a Vietnam MIA. Gene Hackman goes back to Vietnam to find his son and the other soldiers he is sure are still alive in POW camps. R.

**Sleep Away Camp:** The most I can tell you about this movie is that it's a recently released horror flick.

## Manor East 823-8300

**Lonely Guy:** Steve Martin stars in this movie about a man who just can't seem to score with the ladies — until he writes a book telling about it. R.

**Angel:** Here is the melodramatic story of Angel — by day she is a high school student and by night she is a prostitute. Bad plot and bad acting fill this movie. R.

**Never Cry Wolf:** Walt Disney studios spent two years shooting this film on location in Alaska. It is the story of a man who gives up civilization and moves to the wilderness to study a pack of wolves and to survive in the wild. PG.

## Plitt Cinema III 846-6714

**Terms of Endearment:** Shirley Maclaine and Debra Winger star in this picture. It is a bittersweet, comedic story of the relationship between a mother and her daughter as they both grow up. This film is expected to garner several Academy Awards this year. R.

**Silkwood:** Meryl Streep, Kurt Russell, and Cher star in this fact-based story of nuclear plant worker Karen Silkwood. This film is a highlight in movie going. Cher does an excellent job in her role in this film. R.

**Daniel:** A drama concerning the reactions of two children when their parents are executed for treason. Starring Timothy Hutton, Amanda Plummer and Ed Asner.

## Post Oak 764-0616

**Unfaithfully Yours:** Another Dudley Moore comedy in which a man spends his time thinking up different ways to kill his wife, played by Nastassja Kinski, after she supposedly has had an affair. R.

**Star 80:** A very good film depicting the life of Playboy model Dorothy Stratten and her power-hungry husband, who eventually killed her. Mariel Hemingway and Eric Roberts star in this superb film directed by Bob Fosse. R.

**On the cover:** February traditionally is the time when one thinks about Leap Year and Leap Day. Controversy and conflict surround our present calendar, and discussions have been held to come up with a better, more accurate way to keep up with Father Time. See pages 4 and 5 for a look at Leap Year, and pages 8 and 9 for a look at the origins of some common, and uncommon, holidays.
