Houston to recall EDB rice

United Press International
FRANKFORT, Ky. — Comet Rice Mills of Houston has agreed to recall batches of its long-grain brown rice from Kentucky store shelves, the state said Wednesday. The rice has EDB pesticide levels three times the federal limit. Samples taken at a Winn-Dixie supermarket warehouse in Louisville showed EDB levels of 453.3 parts per billion. The federal government has set 150 parts per billion as the maximum safe level of the pesticide. The batches of rice affected are in 14-ounce packages coded S4923. Fourteen other grain-based items tested by the state showed acceptable levels of the pesticide, which is used to help preserve stored grains.

Task force to study toxic waste

United Press International
AUSTIN — A task force appointed Wednesday by Gov. Mark White will draft a comprehensive plan to manage, recycle and dispose of hazardous waste in Texas, which produces in significant quantities more than 25 million tons of their toxic waste a year. White said the state could not depend on federal regulations to manage hazardous wastes within Texas. He asked the 30-member task force to draft a state management plan by September for presentation to the 1985 Legislature. Texas cannot assume that

the federal government has all the answers to the hazardous waste dilemma," White said at his weekly news conference. "It's very simple and very easy for a political leader to get up and say, 'No, don't burn it there and don't dispose of it there.' "I think it's a responsible course for political leadership to say, 'Don't do it there, but let's find a place where it can be done safely.'" White said the task force — chaired by former state Sen. Max Sherman, dean of the LBJ School of Public Affairs in Aus-

tin — will examine criteria for waste disposal sites and options for recycling waste, will determine who will pay for disposal, and will investigate how the state could guarantee long-term monitoring of toxic waste disposal sites. He said he would continue his strong opposition to the offshore burning of toxic wastes. The National Governors Association passed a resolution strongly opposing such offshore burning at its convention in Washington earlier this week. The task force is composed of representatives of chemical

and electronics companies, hazardous waste disposal firms and environmental groups, and members of the banking, engineering, public health and legal professions.

AUCTION!

Lost & Found Bicycles
Raleigh, Schwinn, Huffy, etc.

FRIDAY MARCH 2nd
11AM - ?

Rudder Fountain

Proceeds to benefit
OPERATION MOP-UP

Candy killer's date set

United Press International
HOUSTON — A judge assigned Wednesday assigned Halloween candy killer Ronald Clark to be executed on March 31. O'Bryan began making funeral arrangements for the 39-year-old man, who has been sentenced to death for the 1974 Halloween candy poisoning of his 8-year-old son, Timothy Marc, to collect \$60,000 worth of life insurance. The father was convicted of putting cyanide in "Giant Pixie" candy and giving it to his son. O'Bryan, a former Deer Park politician, was also accused of giving the poisoned candy to his other trick-or-treaters, including his daughter. None of these children ate the candy. O'Bryan steadfastly has denied guilt in his son's death.

C & W DANCE CLASSES

are starting after Spring Break at
GRAHAM CENTRAL STATION

- ★ INTERMEDIATE \$10/person
Sundays, 6-7 p.m.
Thursdays, 5-6 p.m.
