Mondale, reeling from the Hart slaught, had declined an invitation r on network television after w Hampshire but Monday he

made all three of the morning news

Asked on ABC's "Good Morning America" to explain, Mondale laughed and said, "I'm in trouble. I need help.

But he appeared to be buoyed by a packed noontime Boston rally where he was repeatedly interrupted by cheers and screams.

"To hell with New Hampshire," one man shouted.

Mondale said the tide will turn when Hart's record on nuclear arms, energy taxes and other issues are fully discussed.

He said Hart tried to claim that his oil tax would not harm consumers, but, "Voters of Massachusetts, watch out. That's a dagger in your heart. That \$10 a barrel oil tax will raise the cost of producing goods in this country to a level much higher than goods produced anywhere else on earth, and will do so at a time when America is at full retreat in international competition because of the impact of

Hart "wrote a book about his vision of America, and you need an FBI investigator to find one word in there of expressing concern about

people who are in trouble. There's a big difference," Mondale said. At Birmingham, Ala., Sen. John Glenn of Ohio stopped to make some new television commercials Monday while his strategists cast about for a sign of hope in his run of poor fin-ishes. One told reporters it may come in a Mondale Southern collapse.

Glenn told a news conference Hart's Maine caucus victory proved "what we thought — the inevitability of Walter Mondale's candidacy, the juggernaut rolling down the tracks,

certainly has been stopped."
Greg Schneiders, Glenn's spokesman, said if Hart wins in Vermont and Wyoming Saturday, as expected, "Mondale would be devastated in the

Iran: Britain supplied arms

United Press International

BAGHDAD, Iraq — Iran said Monday it would produce "sufficient documents" to prove Britain sup-plied deadly chemical weapons to help Iraq in the bitter 42-month Persian Gulf war, a charge both Baghdad and London denied.

In Stockholm, one of 15 Iranian soldiers flown to Europe for treatment of burn wounds that specialists said could have been caused by chemical bombs, died Monday of heart failure

news agency INA, monitored in London, reported artillery duels between Iraqi and Iranian soldiers but gave no details and said there was a "noticeable calm" on the battlefield.

Iraq also said it staged attacks with helicopter gunships on Iranian posi-tions east of the Gulf port city of

Iraqi Maj. Gen. Hisham Sabah Fakhri predicted a new massive Ira-nian offensive would be opened soon in the war, which broke out Sept. 22,

On the war front, Iraq's official . "If Iran launches another aggres-

sion, we shall not greet them with flowers," he said.

Iran made no battle claims Monday but summoned foreign ambassadors in Tehran to hear Foreign Min-ister Aki Akbar Velayati charge that Iraq used British-supplied chemical weapons to counter Iranian offensives last month.

Claiming 1,000 Iranians have been poisoned, Velayati invited foreign officals to visit those "who are suffering from chemical burns in hospitals throughout the country.

Socal will buy **Gulf Oil**

United Press International

PITTSBURGH - Standard Oil Co. of California said Monday it agreed to buy Gulf Oil Corp. for \$13.2 billion, or \$80 per share, in what would be the largest takeover in

U.S. corporate history.

The merger is aimed at saving Pittsburgh-based Gulf from a hostile bid by Texas oilman T. Boone Pickens, its largest shareholder.

Gulf, the nation's sixth-largest oil company, said the boards of directors of both companies approved the agreement. The plan calls for Gulf to be merged into a subsidiary of fifth-ranked Socal.

The takeover would create the nation's third-largest oil firm, behind Exxon Corp. and Mobil Corp., and could raise antitrust objections by the Federal Trade Commission, industry sources said.

The offer was settled in a day-long meeting of Gulf's board of directors, Gulf Chairman James E. Lee and Socal Chairman George M. keller, a Gulf spokesman said.

Los Angeles-based Atlantic Richfield Co., considered the top con-tender to buy Gulf, said its offer was

considered but rejected. "Another competitor's bid was se-lected and we wish them and the Gulf Oil Corp. well in their endeavors," ARCO said in a statement.

There was no immediate comment from Allied Corp. of Morristown, N.J., considered another likely bid-

der for Gulf. Gulf said a cash tender offer for all its outstanding stock will begin shortly, but Socal is not obligated to complete the deal unless it can buy

85 million shares, or 51 percent of outstanding stock. Socal also has an option to buy

30.5 million shares of Gulf's 35 million unissued treasury shares, a Gulf spokesman said.

Gulf launched a search for a socalled "white knight" after a dissident investment group led by Pickens made an unfriendly \$65-per-share tender offer for 8.2 percent of Gulf's

Pickens, chairman of Mesa Petroleum Co. of Amarillo and his fellow investors rank as Gulf's largest shareholders, with a 13.2 percent stake.

About a dozen prospective suitors had examined Gulf's internal financial data and more than half signed a pact agreeing not to seek control of the company for three years without Gulf's consent, industry sources said.

Kuwait's state-owned petroleum company also has expressed interest in buying Gulf's U.S. gasoline marketing network, sources said.

The nation's largest merger so faris Texaco Inc.'s recent \$10.1 billion acquisition of Getty Oil Co.

Restriping, construction proposed

Parking debated by Faculty Senate

By DAINAH BULLARD Staff Writer

Proposed solutions to parking problems on the Texas A&M Univerdes outside the sity campus dominated the Faculty ecreational Swenate meeting Monday afternoon.

when you charles R. Cargill, vice president assigned an 000 operations, presented the results nd a time tope of investigations into campus traffic oblems from the firm of Bartonhman to the Senate.

E WATER POL Plans to improve parking condi-involved in tions suggested by Barton-Aschman lots.

include redesigning existing parking lots, construction of a parking garage on parking lot 60 (south of Rudder Tower), and construction of a sixlevel parking garage on the site currently occupied by the physical plant.

Cargill agreed with Barton-Aschman that repainting campus parking lots to create more spaces would be a good idea. He also said decreasing the width of parking spaces from 9 feet to 8 feet six inches could add a number of spaces to campus parking

Cargill said a parking garage will probably be built some day on lot 60, but a parking garage on the physical plant site would be more practical since it would provide more parking

spaces where they are needed.

The six-level parking garage would provide 2000 parking spaces, and would cost \$10 to \$13.5 million. Cargill said part of the money to build the garage would come from the sale of parking permits, includ-ing permits for building basement garage spaces, and reserved number

Parking fees would increase yearly from the 1985 fiscal year through the 1987 fiscal year, Cargill said, and student parking fees would increase along with faculty and staff parking

Until a parking garage can be built, the University is taking mea-sures to ease campus parking problems by encouraging parking on the west side of campus, he said.

Beginning in September, the large shuttle buses will drive an "express
