Women's Chorus appeals to B-CS community for help

By HELEN DE LA ROSA
Reporter

The Texas A&M Women's Chorus is one mile away from Europe and they need your support.

Women's Chorus members have washed cars, sold M&Ms, submarine sandwiches, Christmas gifts and cookbooks. They have also solicited businesses in the Bryan-College Station area trying to raise the \$57,500 needed for their European concert tour, which is scheduled for May.

But they still need about \$5,000.

And, typically, the last lap is the hardest to complete.

As a final fundraiser the Women's Chorus has been acquiring sponsors to donate dollars for their cause. The ladies will put Women's Chorus dollars end-to-end Friday at 10 a.m. symbolizing their "Mile From Europe." They will start stretching their dollars at the Quad, continue to Rudder Tower and then wind through Rudder Tower and the Memorial Student Center to the fountain. The Women's Chorus will sing at the Lawrence Sullivan Ross statue which is at the end of the dollar stretch.

At this point, they can only complete half the symbolic mile.

"We need more student involvement," said Renee Cain, Women's Chorus Performance Manager. Cain said Chorus members will be door-knocking at some of the apartments in the area to ask for donations. Members will also announce in their classes that any amount of donation will be appreciated. Receipts can be provided for tax deductions.

Patty Fleitas, assistant vocal music coordinator, said this trip is part of a five-year goal set by the Women's Chorus in 1979. Last fall, the group sent video

and cassette tapes, concert programs, background literature and photographs to audiences for the tour. The group received approval from sponsors and from Texas A&M. The 53 Women's Chorus members and three sponsors leave on May 21 for their day concert tour of London, Oxford, Canterbury, Cambridge, Bass, Bristol and Cardiff Village.

Cain said anyone who would like to donate can take his or her money to the Women's Chorus office in 003 MSC or mail donations to P. O. Drawer K-1, Galveston Station, 77844.

Abandoned baby not doing well

United Press International

GALVESTON — An abandoned two-day-old infant found in a south Texas highway ditch was listed in critical condition Wednesday with severe sunburn, dehydration, insect bites and heart problems, a hospital spokeswoman said.

"She's not doing well, but there is a team of doctors watching her round the clock in the infant special care unit," said Lin Westerlage, a spokeswoman for the University of Texas

Medical Center.

Westerlage said the hospital has received many calls from people who wanted to help the 6-pound baby, named "April Cora" by the doctors and nurses caring for her.

"We have been flooded with calls from all over the country from people wanting to adopt this baby or give money for her medical care," she said. "It (the money) isn't a concern to our hospital because she is going to get the best care anyway."

The girl was found in a ditch

near La Marque, 30 miles south of Houston. She was so badly sunburned doctors have been unable to determine her race.

"It is my understanding they are not sure about race primarily because of the sunburn," Westerlage said. "They're leaning toward a mixed race, but I don't think they know yet."

A man collecting aluminum cans on a remote road found the baby Monday and flagged down a passing ambulance, which took the infant to Memorial Hospital in Texas City

where her condition slipped from serious to critical.

She was transferred to Galveston hospital Tuesday afternoon.

She was about five hours when found and severely sunburned. The placenta and umbilical cord were still attached and laying on the ground next to her.

Crime Stoppers in La Marque is offering a \$1,000 reward for information leading to the identification of the baby's parents.

Police say troublemakers at Klan march to be arrested

United Press International

AUSTIN — Unlike last year, police Chief Frank Dyson Wednesday warned that police will not hesitate to arrest troublemakers at a Ku Klux Klan march Saturday on the state Capitol.

Dyson told a news conference that a "sufficient" number of police officers will be strategically located in the crowd when about 60 caped and hooded Klan members march five blocks up Congress Avenue to the Capitol.

thing incorrectly," he said. "My reading at this point is there is a lot less interest in this march than the first one. I hope we would not expect the large number of anti-Klan demonstrators we had last time."

A Klan march in February 1983 turned into a near riot when a crowd of about 3,000 hecklers clashed with police who were trying to keep demonstrators away from a small band of KKK members.

Police arrested 13 people during and after the march.

Dyson said anyone detected throwing rocks or bottles, or who tries to start any type of violence Saturday, will be immediately arrested and jailed.

"The last time the Klan march we had a good deal of violence," he said. "We had a lot of people watching the parade who threw rocks, bricks, bottles, and debris of all sort."

Dyson said police did not arrest many troublemakers because they were short-handed.

"Consequently, a lot of people were not arrested who should have been," he said.

Demonstrators accused police last year of overreacting but a Travis County grand jury later exonerated officers charged of brutalizing opponents of the Klan march.

Dyson said monitors selected by the city Human Rights Commission and city ministers will observe the conduct of Klan members, protestors and police officers.
