group of chapels that has taken about half of the quickie marriage market by using an obscure 107-year-old law that allows marriages to take place without blood tests.

The law also permits the union to remain confidential if a couple says they have been living together

The California law was intended to allow couples living together to legalize their relationship and legitimize their children without social stigma.

California state Sen. Ollie Speraw has proposed abolishing the state's secret marriage law and allowing chapel operators to issue wedding licenses. The bill is under review in the Senate Finance Committee.

Plan your career at TI's Semiconductor Group Career Day in Houston.

exas Instruments is the world's leading supplier of semiconductor components and materials. The reason is simple, we've been at the forefront of semiconductor technology for over

As the semiconductor industry enters a new era of growth, join the leader in Houston. You'll be in good company when you enter TI, the inventors of the integrated circuit, the single-chip microprocessor and the single-chip minicomputer.

If you are majoring in a technical field you may be interested in Texas Instruments' summer internships which are available in Houston.

To qualify for the summer internship program or permanent employment you must have or be working towards a BS or MS degree in chemistry, electrical engineering, chemical engineering, electrical engineering technology, engineering physics, material sciences, solid state science or computer science (hardware and software).

At Texas Instruments you'll enjoy an oustanding benefits package including an educational assistance program, a stock option purchase plan, company-paid insurance and much more!

There's opportunity right here in Houston. With its acclaimed medical center, retail stores, entertainment attractions, one of the nation's space centers and a continually growing

business community, Houston is an excellent place to live and begin a career.

Yes, I'm interested in learning more about a career with Texas

Instruments.
