Hot milk method fits modern needs

By JULIE ENNIS

Reporter

Ultra high temperature milk may be new to most consumers but, a Texas A&M professor of food sci-ences says, the milk has been around Dr. Charles Dill says a combina-

tion of high temperatures and sterile packaging increases the shelf life of UHT milk from a couple of weeks to about four months He says the UHT pasteurization process was developed in the United States about 20 years ago, but it has

been in the last three to four years that the dairy industry has begun to use the process commercially.
Unlike ordinary milk pasteurization, Dill says, UHT milk is heated to

degrees Fahrenheit, quickly cooled to room temperature then packaged in an air-tight, five-layer paper and foil container.

Dr. Alice Hunt, a nutrition spe-cialist for the Texas A&M Agricultu-

ral Extension Service, says neither

the flavor nor the nutritional value of the UHT milk has changed. But, Hunt says, what has changed

is the convenience. "People with busy lifestyles, and those who use small quantities of milk will find UHT milk a conve-
