Rates show comparative pricing between AT&T's and MCI's evening rates for interstate calls during the hours of 5-11 p.m., Sunday through Friday. Final rate authorities are MCI Tariff FCC #1 and AT&T Tariff FCC #263. Rates shown are subject to change. Federal Excise Tax applies.
*MCI rates shown are for customers whose long distance charges are between \$20.00 and \$74.99/month. Additional discounts apply above \$75.00.

Start with the chart. As you can see, MCI can save you 5% to 40% over AT&T's rates.

What you can't see is that MCI has also dropped its monthly fee. That means you pay only for the calls you make, so you start saving with your very first call.

And that's not all. MCI has also added volume discounts for those of you whose long distance bills are more than \$20 a month. The more you call, the less each call will cost.

And, of course, with MCI you can save on long distance across Texas, as well as to any other state, 24 hours a day. And save over AT&T on every call, even over their night/weekend rate.
