TCU tandem rushing at record pace

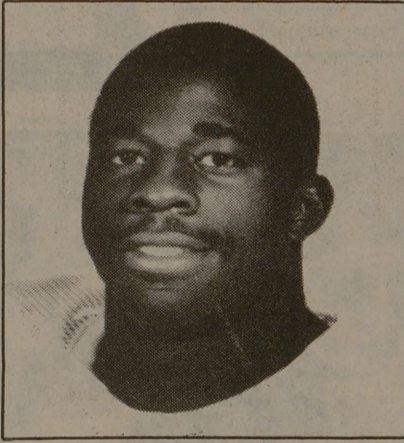

United Press International
 FORT WORTH, Texas — In the Southwest Conference's first 69 football seasons, there have been only six cases where two players on the same team have rushed for more than 2,000 yards in a season.

But in the early stages of the 1984 campaign there are four more sets of running backs with a good shot at making it.
 TCU's Jeffrey Davis and Tony Jeffery, the one-two rushers in the SWC after two games, are picking up yardage at a pace that would give them more than 3,500 yards over an 11-game season. They are well ahead of the pace set by SMU's Eric Dickerson and Craig James in 1981, the year those two rushed for 2,575 yards.

And should the Frog duo fall off the pace, SMU, Houston and Texas Tech all have two runners whose early numbers keep them in striking distance of 2,000 yards.

The Mustangs' Reggie Dupard and Jeff Atkins are gaining at a pace that would give them 2,585 yards over an 11-game schedule. Houston's Sloan Hood and Raymond Tate would have 2,195 yards if they kept rushing at their current rate, and Texas Tech's Timmy Smith and Freddie Wells need to accelerate only slightly from their current figures that would total 1,914 yards over the full schedule.

The SWC had its first 2,000-yard tandems in 1977 when Texas' Earl Campbell and Johnny "Ham" Jones

TCU's Tony Jeffery

rushed for 2,233 yards and Texas A&M's George Woodard and Curtis Dickey totaled 2,085. That was the year Campbell set the one-year rushing record of 1,744 yards.

SMU

DALLAS — Southern Methodist football coach Bobby Collins Monday said he is concerned that he might have trouble raising team morale to the level of TCU's following the Frogs' 42-10 triumph over Kansas State.

The Mustangs host the Frogs Saturday night in Texas Stadium in the Southwest Conference opener for both teams.

"I hope we don't have a problem matching (attitude) with them," Collins said. "If we do, then we are

going to be in trouble."

"It's a big game for us; it's our first conference game, and it's against TCU, our crosstown rivals. I think our players will be ready and will be excited about playing the game," he said.

Split end Bobby Leach and tight end Greg Hubbard, who have missed two games this season, should be able to play Saturday, Collins reported.

Outside linebacker Darrin Mitchell, who suffered a bruised collarbone on the opening kickoff against Louisville in the Mustangs' season opener, will not be ready to play until Oct. 13, when SMU takes on Baylor, the team said.

Houston

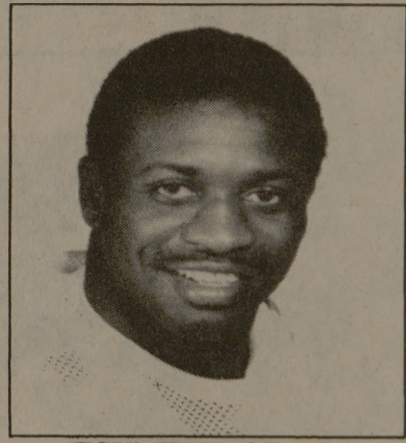

HOUSTON — Houston Cougars fullback Sloan Hood sat out practice Monday because of a slight hamstring pull, and strong safety Randy Thornton was out because of a stomach virus, the team announced.

Coach Bill Yeoman Monday had praise for Hood, who is the team leader with a rushing average of 106 yards in two games.

"He's really got a great chance to be good," Yeoman said. "He is a gifted athlete, and he has good instincts. He still needs a lot of work though."

Hood, a freshman, sat out Monday's rain-soaked practice with a slight hamstring pull. Thornton missed drills because of a virus.

The Cougars open the Southwest Conference season Oct. 6 in Waco

TCU's Kenneth Davis

against the Baylor Bears.

Texas Tech

LUBBOCK, Texas — Morale was low around the Texas Tech football team, coach Jerry Moore admitted Monday, but he said it was important his squad forget about last Saturday as fast as possible and concentrate on the opening of the Southwest Conference season.

"The whole thing starts over for both us of (Tech and Baylor) on Saturday," Moore said. "It doesn't matter if both teams are 2-0 or 0-2. It's going to be a whole new season."

Tech fell to New Mexico last weekend, 29-24, after leading by 11 going into the final quarter.

"There are really a lot of low spirits around our place because of the

high expectations everyone has about that game," said Moore. "I like I've been gutted. There is much hurt as I've seen in a long time, but the sooner we are able to concentrate on Baylor and forget about New Mexico the better off we will be."

Baylor

WACO, Texas — Baylor coach Grant Teaff said Monday that while he was disappointed with his team's lack of offensive production this season, he was did not feel the play quarterback Cody Carlson and tight end Muecke should be singled out.

"I want to make it completely clear that our two quarterbacks do not lose the football game (against Oklahoma last Saturday)," Teaff said. "They had a lot of help being inept. You shouldn't point the finger."

"We didn't play well enough offensively to give our team a chance to win. You can't win against good people unless you can move the ball and in the first two games we haven't been able to."

Teaff said the only major lineup change planned for Saturday night's meeting with Texas Tech would be at weakside linebacker, where sophomore Ray Berry will replace senior John Breit.

Breit suffered cartilage damage in his left knee against Oklahoma and will undergo arthroscopic surgery Tuesday.

Texas Instruments to launch Job Fair Tues., Oct. 2, 1984 Memorial Student Center, Texas A & M Rooms 212-224

TI's technical managers want to see you. They want to tell you about the job opportunities in the many technologies which make Texas Instruments a leader in electronics. That's why TI is having a Job Fair on the Texas A & M campus October 2nd through the 4th. It gives the company three days to bring in dozens of key engineers and managers to meet you. They'll come from TI labs and sites in all parts of Texas to describe programs, answer questions, interview, and invite you to their facilities.

If you're a top student, particularly in EE or Computer Science, this is an event you won't want to miss.

- Briefing and sign-ups for interviews 10 a.m. to 8 p.m. Oct. 2, at Memorial Student Center, Texas A & M, Rooms 212-224.
- Interviews (by appointment) Oct. 3 and 4. Invitations for plant visits will be extended on those days as appropriate.

Semiconductor Group — world's leading supplier of semiconductor components, materials and technology.

Semiconductor Sales — responsible for sales of state-of-the-art technologies such as speech synthesis, microprocessors, logic arrays and MOS memories.

Briefings & Sign-ups

Interviews

SIGN UP FOR INTERVIEWS IF YOU ARE GRADUATING IN DECEMBER.

Bachelor's, master's or PhD degrees in:

- Electrical Engineering
- Computing Science
- Aerospace Engineering
- Mechanical Engineering
- Industrial Engineering*
- Physics (Engineering and Solid-State)
- MBA with technical undergraduate degree (Semiconductor Sales ONLY)
- Electrical Engineering Technology*
- Business Analysis
- Business Computing Science
- Industrial Production Management Technology*

*Only for production engineering such as manufacturing and quality assurance.

NOTE: Persons majoring in any degree with at least 18 hours of computer science will be eligible to interview with the Information Systems and Services Group (IS&S).

TALK TO TI'S MAJOR PRODUCT & SERVICE GROUPS.

Equipment Group — state-of-the-art government electronics including very high-speed integrated circuits, electro-optics, radar and digital systems, missile guidance systems, and RF/Microwave systems in both design and production. U.S. citizenship required.

Information Systems & Services — state-of-the-art computer systems and services to TI's worldwide operations.

Data Systems Group — responsible for design, manufacture, marketing and servicing of digital equipment — mini/micros, computers, disk storage, data terminals, computer peripheral equipment and more.

Corporate R & D and Engineering — pioneering the technologies required by present and future business opportunities.

Corporate Facilities — responsible for layout, engineering and designing the building and facilities systems necessary for manufacturing and testing TI products.

Locations: Austin, Dallas, Houston, Lewisville, College Station, Temple, Midland, McKinney, Sherman, Abilene, and (for semiconductor sales) all major U.S. cities.

Candidates must be registered with the Placement Office.

Bring your data sheet or resume. See you on October 2.
