University of Houston University Park LONDON PROGRAM

SPRING '85

The College of Humanities and Fine Arts and the Department of English and Communications have established a center in London, England, designed to offer American students the 'English experience.' Students earn 15 hours UH credits per semester in residence in central London.

The course work is structured to immerse students in British life and history and allow time to travel to sites of historical and literary interest, such as Canterbury, Stratford, and the Lake District.

Courses carry UH credits in English, Art, RTV, Journalism, Dance, and French. All credits may be transferred.

Requirements: UH students in good standing, transfer students from accredited colleges and universities--sophomore to graduate level.

Prerequisite: English 1301 or the equivalent and a 2.00 or more GPA. Acceptance is on a first come/first served basis. Limited en-

Resident tuition for 15 hours:

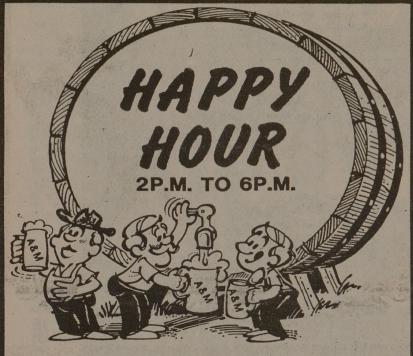

Housing: (includes bed & breakfast, etc.) Application fee: (non-refundable)

\$1,710.00

1,350.00

Other living expenses are roughly comparable to those in Houston. Airfare is not included.

For more information contact Gillian Landreneau London Program Office, Room 115A Roy Cullen University of Houston-UP, Calhoun Blvd. Houston, TX 77004 749-4726/749-3483

What's up

TAMU BLOOD DRIVE: Bloodmobiles will be located at the MSC, the Commons, Sbisa and across the tracks through today. Give life, give blood.

HISTORIC RESOURCE SOCIETY: David Moffit '61, superintendant of the Statue of Liberty is lecturing at 8 p.m.

MSC CEPHEID VARIABLE: the movie "A Midsummer Night's Dream" will be shown at 7:30 p.m. and 10 p.m. in

POSSUM KINGDOM HOMETOWN CLUB: is meeting at 7

AGGIE CLUB: is meeting at 6 p.m. in Zachry for club picture. A mandatory meeting for all members going to the Arkansas game will be at 6:30 p.m. in 165 Blocker.

CHI ALPHA: is meeting at 7 p.m. in 410 Rudder for Bible study prayer and fellowship.

TAMU ANTHROPOLOGY SOCIETY: Joe S. Graham is presenting a lecture and slide show on "Origins, Evolution and Symbolic Nature of Mexican-American Vernacular Architecture" at 7 p.m. in 301 Bolton.

MBA/MS ASSOCIATION: Carl Hulick, senior vice-president of Dean Witter Reynolds, will be speaking on the evolution of financial services industries at 7:30 p.m. in 114 Blocker.

SIGMA TAU DELTA: is meeting at 7 p.m. in 126 Blocker. ALPHA LAMBDA DELTA: is having an "Apple Polishing Party" at 7 p.m. in 145 Blocker. Invite a professor and bring an apple dessert.

ALPHA GAMMA SIGMA: (a colony of Delta Sigma Pi) is meeting at 7 p.m. in 163 Blocker.

SWAMP: is meeting at 8:30 p.m. in 410 Rudder.

TAMU L-5 SPACE SOCIETY: is meeting at 7 p.m. in 502

Rudder. Sign up for Saturday's NASA tour. INTERNATIONAL STUDENT ASSOCIATION: is meeting

at 7 p.m. in 212 MSC. International week will be discussed POLITICAL SCIENCE SOCIETY: Dr. Ken Mladenka, professor of political science, will be discussing "Media and Vietnam: Traitor or Savior?" at 7 p.m. in 601 Rudder.

P.O.W.A.R: is meeting at 8:30 p.m. in 302 Rudder. Elections will be held and members may order MIA bracelets.

Items for What's Up should be submitted to The Battalion, 216 Reed McDonald, no less than three days prior to desired publication date.

Water shortages forseen for Valley

United Press International

SOUTH PADRE ISLAND — The Rio Grande Valley is about six years away from the beginning of a water shortage that will become progressively serious, a Texas Department of

Water Resources expert predicts.
"Shortages will begin to make themselves felt by 1990," said Dr. Gerald Higgins of Austin.

Higgins told a recent Texas Vege table Association convention that trouble for the Valley will begin in six to seven years, and by the year 2000 the area's problems will become acute.

He reported Valley water use and availability in 1980 were about bal-anced — about 1,753-million acre feet consumed and a 1,763-acre foot supply.

But the balance will not last much

longer, he said. By 1990 increasing municipal and industrial requirements will push the above supply. By 2000, according to his agency's statewide survey, demand will outstrip supply by about 173,000 acre feet.

Agricultural use is projected to remain little changed at 1.3-million acre feet a year by the start of the

Higgins said the only relief he could foresee for the looming water deficit is conservation or operational efficiency, especially on the part of agriculture, which represents about 88 percent of the Valley's current water usage.

Any significant economies will have to be generated there because agriculture is such a heavy water

Dr. Tim Hartz of Weslam Texas Agricultural Extension & ice vegetable specialist, agreed Higgins. Hartz said a drip irrig demonstration he and fellows tist Clyde Bogle conducted on three seasons of tomato produ in Hidalgo County.

The demonstration showed a percent yield increase of the market fruit, while water use w duced by an astonishing 70 per

Despite its installation of \$1,000 and more per acre, drip gation could be used profitable number of crops, including pe celery, onions and melons.

Virtually none of the Valle 100,000 acres of vegetables arem watered by drip, Hartz said.

Hartz said other considerable, less spectacular, savings could made by irrigating through pipe stead of open ditches and by ing the length of irrigated fields

The development and wide ad tion of such an irrigaton so would offer a potential 15 per water savings alone, Hartz predi

Higgins said the Valley is part "crisis of major proportions" to looms for the statewide waters

Austin, for example, aleady b outrun its ability to supply safewa to its citizens, he said.

Texas is already mining its si surface water supplies to the turn 5 million acre feet a year, High

Houston couple break several months of silence

Ports testify in son's murder case

HOUSTON — A couple broke months of silence Wednesday by tes-tifying before the grand jury that in-dicted their teenage son for the mur-der of a female letter carrier, but they they were returned to itil for at they then were returned to jail for at

least another night.

Bernard and Odette Port have been in jail since Sept. 12 on a contempt of grand jury charge for refusing to testify against their 17-year-old son, David.

The Ports have maintained for several months they have a parentchild privilege not to testify against

The teen-ager is charged with murder in the June 7 shooting death of mail carrier Debora Sue Schatz,

Mrs. Port, who is David's stepmother, spent six hours on the witness stand Wednesday, Harris County District Attorney John Holmes said.

He added that her husband testified for about 90 minutes before the grand jury recessed until Friday.

Assistant district attorney Jim Lavine said "some progress" was made, but he said, "We can't tell you what has happened."

Defense attorney Randy Schaffer also said progress has been made in

Schaffer said the Ports asked for the meeting with the grand jury because the focus of the investigation

had changed, and there are so questions they could answer.

This ain't no fun," Schaffer si

'They're pretty well sick of all this

"They've been sick of all this the first 24 hours. Another 90 d in the slammer with nothing and plished would be time wasted in judgment, and I'm sure in

(continued from page 1) some census records.

'That was, for me, the first bite of the genealogical bug, which, as anyone who is involved in it knows, there is no cure," Haley said.

Haley said he gives all the money he earns from lecturing and speaking to help put students through

At an earlier news conference, Haley told the media the Reagan administration is conservative in terms of education and funding for both

black and white students. He said current black college stu-

dents would be the biggest assets for colleges trying to recruit more black

"I don't think you could have better emisaries than the students," he

Haley also suggested talking to older people, such as parents, to have them pass the word to young people before they graduate or drop out of high school.

"The important thing is to get them moving while still in high school," Haley said.

Another way black college students can encourage other blacks from their hometowns to attend college is to invite them to visit the college and get the feel of the campus.

This can help dispel any fears the prospective student might have. Haley said this could be done at special times such as Racial Awareness

Fear of how he will be accepted can hinder a black person's achieve-

"I'm really concerned that the concern with problems of blacks and other minorities has tended to cause an almost phobia to the effect that sometimes it can hinder people from what they might do," Haley said.

He said one of the biggest problems black students face is not at college but when they return home. The student finds there is a great rift

dropped out of high school.
"They can hardly even talk someone that was in the seat next them," Haley said.

While white students also can be this problem, Haley said it is mountensive in the case of the blacks cause the black community is mo

Haley also talked about his

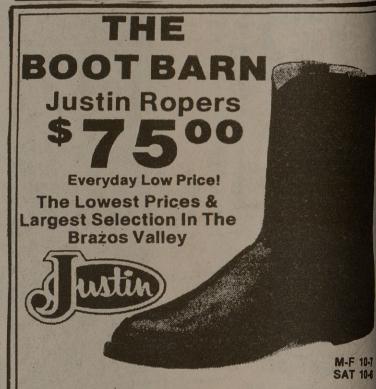

coming books.
"Henning," a nostalgic look at hometown in western Tennesset due out at the end of the year.

His next project is a book about C.J. Walker, a black woman who came a millionaire producing a selling hair care products for blue women in the late 1800s.
