# A&M netters control own destiny

By MARYBETH ROHSNER  
Sports Writer

Things are coming right down to the wire for the Texas A&M men's tennis team.

And, if coach David Kent's netters can generate enough power, the Ags may pull off an electrifying finish to the spring season by defeating TCU on Friday and Texas Tech on Saturday.

"We've got our destiny in our own hands," Kent said. "We can still finish second in the conference."

The top spot in the Southwest Conference belongs to SMU. The No. 2-ranked Mustangs are now 54-9 overall and 7-0 in the SWC.

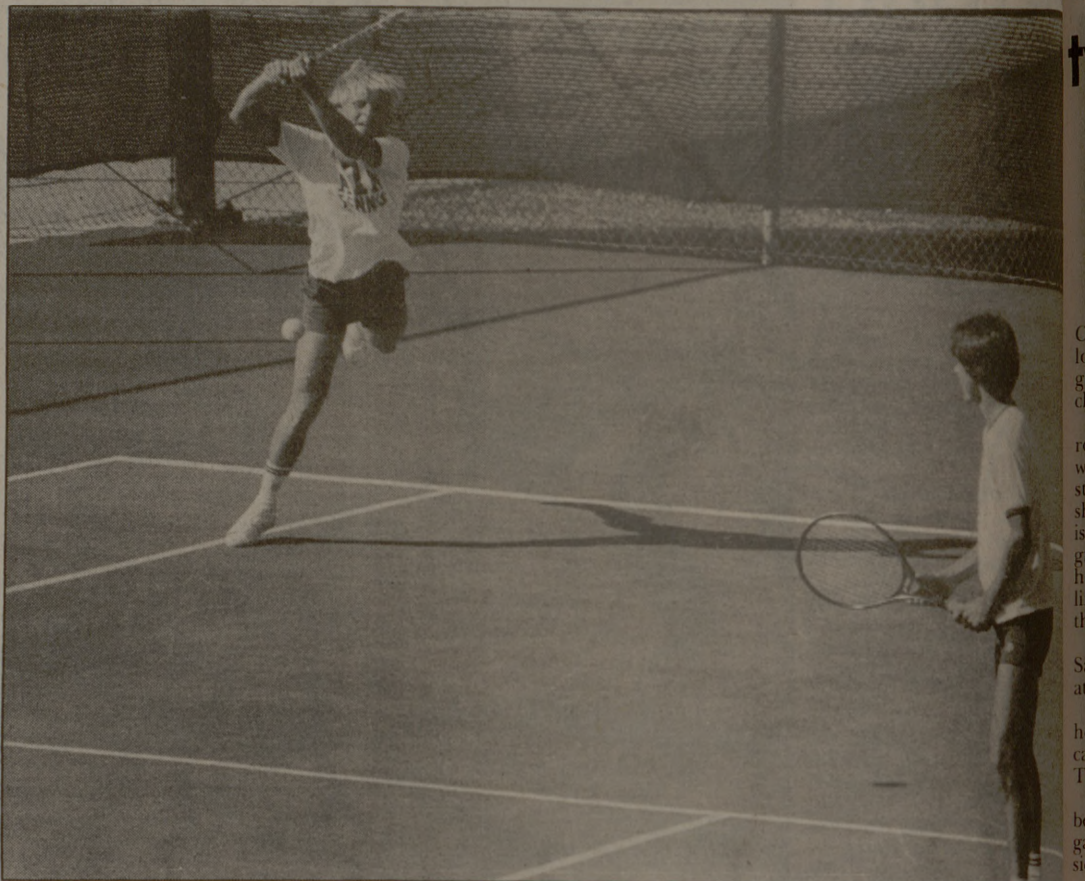

But the competition will still be close for second, third and fourth places in the SWC. Kent said a high finish and an NCAA bid is still possible for A&M, 35-19 overall, 3-3 in the SWC.

"We've been working hard," he said. "If we can't handle the pressure better than we have been lately, we don't deserve (an NCAA bid)."

Tech, 20-34 overall and 1-5 in the conference, is unranked.

"I think we'll beat Tech pretty handily," Kent said. "TCU will be an even-steven match. They're a very good team. We've just got to do better in doubles against them."

Although the Aggies have been struggling in doubles play, Kent's combos worked well together against Rice last weekend. Grant Connell and Kimmo Alkio will team up in No. 1 doubles. Greg Hill is paired with Marcel Vos for the Ags' No. 2 slot, and the Dean Johnson-Dean Goldfine duo will finish off the roster in No. 3 doubles.

Friday's play against TCU, 36-18 overall and 5-1 in conference, should bring about some outstanding tennis, especially in the No. 1 singles competition. Connell, still undefeated in SWC singles play, will face TCU's Tom Mercer. Mercer is also undefe-

ated in the conference. Even if A&M doesn't pull off an NCAA bid, Kent has nothing to complain about.

"We've accomplished more this tennis season than ever before," Kent

said. "We'd just like to finish the year well."

"We had all our success and we haven't put a match together," he added. "We've got to put together in one match and play our capacity."
