Luther's Thanksgiving Feast

Open Thanksgiving Day 11 am-midnight

- Slow Smoked Tender Turkey Breast
- Cornbread Dressing
- Cranberry Sauce
- Dinner Roll
- Fresh Baked Pumpkin Pie

& Your Choice of 2 of the Following:

- Mashed Potatoes with Gravy
- Cole Slaw
- Green Beans
- Potato Salad
- Sweet Potato Crunch
- Bar-B-Q Beans

ONLY **\$5.99** Childs Dinner **\$2.99**

Come and get it at Luther's.

Turkey Feast Available on Thanksgiving Day Only. Regular menu also available.
2321 So. Texas Ave.
693-4438

Company alters refund plan

CS residents to get rebate

By SCOTT SUTHERLAND
Staff Writer

While most College Station residents will receive a Christmas rebate from the utility company, some students will be left out of the deal.

In October utilities manager Linda Piwonka announced that College Station Utilities would be receiving a rebate from Gulf States Utilities, College Station's utilities supplier.

The rebate from Gulf States Utilities totaled \$634,475, and Piwonka suggested that the city contribute \$366,165 from a special energy project fund, providing a total \$1,000,640 to return to residential and business customers. The council approved the plan in October.

In the past the utility company has returned such rebates by lowering power costs. But City Manager North Bardell suggested the city try a rebate plan.

Piwonka said the rebates will provide a boost to the local economy and a more recognizable return for

customers than lowered power costs. Piwonka hopes to help the economy by mailing the checks in early December, just in time for holiday shopping.

Piwonka met with business leaders on Nov. 12 to discuss ways to encourage rebate receivers to spend their money in College Station. One of the ideas discussed was a discount plan for shoppers who purchased goods with the rebate check. Piwonka and the chamber of commerce are asking businesses who wish to participate in the plan to contact the Chamber of Commerce or College Station Utilities.

The minimum rebate will be \$5 and the average rebate to residential customers will be \$32. The higher the utility bill during the rebate period, the higher the rebate check.

The rebate is based on an average 3.7 cents per kilowatt hour consumed over the past 12 months, Piwonka says. So, the more hours used, the larger the check will be. Piwonka says the average bill in College Station is \$76 per month in the

winter, and \$73 per month in summer.

Using the winter rate for months and the summer rate for months, the average College Station Utilities customer paid \$894 for months of utilities.

Residents must be on the College Station Utilities system to receive a rebate. The rebate is based on period between September 1984 and October 1985. If residents moved to another apartment but still on the College Station system they still will receive a rebate.

Seniors who have graduated and left the system are not eligible, if they were on the College Station system but moved to Bryan, they are ineligible for the rebate.

Residents also must have been a utilities customer between September 1984 and February 1985.

Piwonka says Texas A&M will receive a very large rebate because the University generates most of own power.

Fruit juice executive indicted

Associated Press

DALLAS — A grand jury has indicted a juice company executive on charges of selling adulterated orange juice and lemonade to area schools.

The Dallas County grand jury indictment, returned Wednesday, charges that Steven Robert Zantop, vice president of Juci-Rich Products of Texas, sold thousands of gallons of juice that failed to meet state and federal health standards.

The indictment also alleges the company operated under unsanitary conditions and is not registered with the state to manufacture food.

Zantop, who denied the allegations, faces up to a year in the county jail and a \$2,000 fine if convicted.

Zantop said his company did not violate any laws and said the problem occurred in one batch of juice that was voluntarily recalled. He said the problem was corrected.

Officials said some of the juice sold as 100 percent juice contained a yellow dye and others contained benzoic acid, a preservative. Neither substance was listed on the label of ingredients on the four-ounce juice

Yell Practice tonight at Billy Bob's Texas

By MEG CADIGAN
Staff Writer

Tonight's midnight yell practice will be at Billy Bob's Texas, billed as the world's largest honky-tonk.

Billy Bob's, which has a rodeo arena, restaurant area and games, is on North Main Street in the Fort Worth stockyards. Admission will be free with a Texas A&M I.D. both tonight and Saturday, said Susan Fines, the club's public relations director.

Mel McDaniel will be in concert tonight and the Bellamy Brothers will perform Saturday night.

The club is owned by former student Billy Bob Barnett, Class of '70. After graduation, Barnett played football for the Chicago Bears until knee injuries forced him to quit, Fines said.

cartons, officials said.

Lynwood Scholtz, assistant director in the food and drug division of the state health department, said some people can develop allergic reactions to the dye, but he said the additives are not harmful to the gen-

eral public. Zantop said the preservative problems were discovered several months ago in a shipment from a supplier who would not identify. He said he was not aware that he was required to list the dye among the ingredients.

So, Barnett returned to Ft. Worth and bought the Miller beer distributorship of Tarrant County and opened his club, Billy Bob's Texas, Fines said.

Fines describes Barnett as a "pure cowboy," who was raised on a ranch in Brenham.

Although Barnett lives in Ft. Worth and gives some support to Texas Christian University, Fines said he doesn't forget his alma mater.

"We'd kind of like to keep the (yell practice) a tradition every-time A&M plays TCU," Fines said.

This is the second midnight yell practice to be held at Billy Bob's Texas.

Fines said to be admitted to Billy Bob's Texas, one must be 18 or older or have a parent or legal guardian with them.
